Adaptive Audio MIDI Transcription Studio

Turn your recordings into editable MIDI tracks, inspect the notes and take individual parts into your music workflow.

Product overview

An audio-transcription prototype for editable, inspectable music tracks.

Documented functions

- Import supported recordings
- Separate source parts when configured
- Create approximate note tracks
- Inspect tracks in a piano roll
- Export individual or combined MIDI

Potential buyer fit

Music software vendors / Production studios / Creator-tool developers

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Editable note tracks / Piano-roll views / Multitrack MIDI files

Profile and full editable brief

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 80,000	**EUR 450,000**

Current repository documentation

Current main baseline: No semantic release version established.

An implemented prototype for evaluation and further development.

Material limitations: Audio-to-MIDI is approximate transcription rather than a lossless conversion. External processing assets and music rights are separately governed.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

Commercial and delivery boundary

The asking reference and seller-estimated cost to recreate comparable work retain the existing individual assessment. They are not historical expenditure, a contractor quotation, an independent appraisal, demonstrated revenue or a guaranteed buyer saving.

AS IS acquisition is subject to a separate written agreement defining the first-party rights, exact version, delivery manifest and acceptance. Third-party software, data, models, media and service rights retain their own terms. Future development, hosting, operational support, customer content and private credentials are separately scoped or excluded.

Source basis

TA-IP-085-P: product documentation reviewed 16 October 2026. TA-IP-085-C: retained commercial register. TA-IP-085-A: dated seller handover assessment. This catalogue review did not rerun product tests or certify legal, scientific, security or production acceptance.
