TA-IP-076 / Ada / INDEPENDENT IP ASSET

Adaptive Neural Architecture Platform

Evaluate how changes to a learning model affect its performance before choosing a new version.

Product overview

An adaptive learning-model prototype for governed development and candidate acceptance.

Documented functions

- Build and train learning candidates
- Study controlled model growth
- Compare validation outcomes
- Govern candidate acceptance
- Recover and replay retained states

Potential buyer fit

AI product developers / Research groups / Model-engineering teams

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Candidate models / Evaluation records / Recovery material

Profile and full editable brief

https://thearchitect-max.github.io/MyProjects/projects/adaptive-neural-architecture-platform/

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 190,000	**EUR 1,000,000**

Current repository documentation

Current main baseline: 0.5.0.

An implemented prototype for evaluation and further development.

Material limitations: Implemented growth and governance functions do not establish general-purpose superiority. Model performance remains task-specific.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

Commercial and delivery boundary

The asking reference and seller-estimated cost to recreate comparable work retain the existing individual assessment. They are not historical expenditure, a contractor quotation, an independent appraisal, demonstrated revenue or a guaranteed buyer saving.

AS IS acquisition is subject to a separate written agreement defining the first-party rights, exact version, delivery manifest and acceptance. Third-party software, data, models, media and service rights retain their own terms. Future development, hosting, operational support, customer content and private credentials are separately scoped or excluded.

Source basis

TA-IP-076-P: product documentation reviewed 16 October 2026. TA-IP-076-C: retained commercial register. TA-IP-076-A: dated seller handover assessment. This catalogue review did not rerun product tests or certify legal, scientific, security or production acceptance.
