Aletheia Intelligence Fabric

Organise authorised information about people, organisations and events, and review the relationships that matter to your investigation.

Product overview

An entity-intelligence prototype for authorised collection and attributable relationship review.

Documented functions

- Collect permitted source records
- Resolve entity references
- Review relationships
- Detect recorded changes
- Prepare attributable analytical outputs

Potential buyer fit

Corporate analysis teams / Intelligence software vendors / Research organisations

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Entity dossiers / Relationship views / Evidence histories

Profile and full editable brief

https://thearchitect-max.github.io/MyProjects/projects/aletheia-intelligence-fabric/

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 200,000	**EUR 950,000**

Current repository documentation

Current main baseline: 1.1.0.

An implemented prototype for evaluation and further development.

Material limitations: Source access must remain authorised. Analytical correlations do not independently establish factual relationships or intent.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

Commercial and delivery boundary

The asking reference and seller-estimated cost to recreate comparable work retain the existing individual assessment. They are not historical expenditure, a contractor quotation, an independent appraisal, demonstrated revenue or a guaranteed buyer saving.

AS IS acquisition is subject to a separate written agreement defining the first-party rights, exact version, delivery manifest and acceptance. Third-party software, data, models, media and service rights retain their own terms. Future development, hosting, operational support, customer content and private credentials are separately scoped or excluded.

Source basis

TA-IP-049-P: product documentation reviewed 16 October 2026. TA-IP-049-C: retained commercial register. TA-IP-049-A: dated seller handover assessment. This catalogue review did not rerun product tests or certify legal, scientific, security or production acceptance.
