Chimera Spectral Perception System

Assess imaging concepts and compare acquisition options before planning a physical trial.

Product overview

An imaging R&D prototype for coordinated observations and physical-study preparation.

Documented functions

- Prepare multi-view imaging studies
- Review feasibility assumptions
- Coordinate acquisition records
- Assess timing and calibration
- Bind physical campaign evidence

Potential buyer fit

Imaging product developers / Scientific instrument teams / Perception research groups

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Imaging study plans / Acquisition histories / Campaign qualification records

Profile and full editable brief

https://thearchitect-max.github.io/MyProjects/projects/chimera-spectral-perception-system/

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 125,000	**EUR 1,200,000**

Current repository documentation

Current main baseline: 0.15.0.

An implemented prototype for evaluation and further development.

Material limitations: The integrated physical camera has not been bench-verified. Software and planned campaign records are separate from measured hardware performance.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

Commercial and delivery boundary

The asking reference and seller-estimated cost to recreate comparable work retain the existing individual assessment. They are not historical expenditure, a contractor quotation, an independent appraisal, demonstrated revenue or a guaranteed buyer saving.

AS IS acquisition is subject to a separate written agreement defining the first-party rights, exact version, delivery manifest and acceptance. Third-party software, data, models, media and service rights retain their own terms. Future development, hosting, operational support, customer content and private credentials are separately scoped or excluded.

Source basis

TA-IP-067-P: product documentation reviewed 16 October 2026. TA-IP-067-C: retained commercial register. TA-IP-067-A: dated seller handover assessment. This catalogue review did not rerun product tests or certify legal, scientific, security or production acceptance.
