DMT Laser Phenomenology Engine

Organise reported visual experiences and compare study records for structured phenomenology research.

Product overview

A computational research workbench for recorded visual phenomenology and controlled study evidence.

Documented functions

- Organise phenomenology records
- Run controlled computational studies
- Retain calibration and review records
- Compare declared hypotheses
- Prepare attributable evidence packages

Potential buyer fit

Perception research groups / Scientific data teams / Research software vendors

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Study dossiers / Hypothesis comparisons / Review records

Profile and full editable brief

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 210,000	**EUR 1,150,000**

Current repository documentation

Current main baseline: 8.23.0.

Available software for evaluation against your intended use. Deployment suitability is assessed separately.

Material limitations: Software and record integrity do not establish extraordinary physical effects. Human experimental and scientific conclusions require separate evidence.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

Commercial and delivery boundary

The asking reference and seller-estimated cost to recreate comparable work retain the existing individual assessment. They are not historical expenditure, a contractor quotation, an independent appraisal, demonstrated revenue or a guaranteed buyer saving.

AS IS acquisition is subject to a separate written agreement defining the first-party rights, exact version, delivery manifest and acceptance. Third-party software, data, models, media and service rights retain their own terms. Future development, hosting, operational support, customer content and private credentials are separately scoped or excluded.

Source basis

TA-IP-023-P: product documentation reviewed 16 October 2026. TA-IP-023-C: retained commercial register. TA-IP-023-A: dated seller handover assessment. This catalogue review did not rerun product tests or certify legal, scientific, security or production acceptance.
