Evidence-Governed Software Assurance Platform

Compare software components against your requirements and review the evidence before selecting them.

Product overview

A software-assurance asset for controlled component discovery and qualification.

Documented functions

- Discover candidate components
- Review capability and rights evidence
- Compare benchmark records
- Control qualification decisions
- Retain governance and recovery histories

Potential buyer fit

Developer-tool companies / Software assurance teams / Enterprise architecture groups

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Component dossiers / Comparison records / Qualification decisions

Profile and full editable brief

https://thearchitect-max.github.io/MyProjects/projects/evidence-governed-software-assurance-platform/

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 475,000	**EUR 1,200,000**

Current repository documentation

Current main baseline: 40.0.0.

Available software for evaluation against your intended use. Deployment suitability is assessed separately.

Material limitations: The offered IP is the original assurance product. External components retain their own ownership and licence terms.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

Commercial and delivery boundary

The asking reference and seller-estimated cost to recreate comparable work retain the existing individual assessment. They are not historical expenditure, a contractor quotation, an independent appraisal, demonstrated revenue or a guaranteed buyer saving.

AS IS acquisition is subject to a separate written agreement defining the first-party rights, exact version, delivery manifest and acceptance. Third-party software, data, models, media and service rights retain their own terms. Future development, hosting, operational support, customer content and private credentials are separately scoped or excluded.

Source basis

TA-IP-039-P: product documentation reviewed 16 October 2026. TA-IP-039-C: retained commercial register. TA-IP-039-A: dated seller handover assessment. This catalogue review did not rerun product tests or certify legal, scientific, security or production acceptance.
