AEGIS Vision – Evidence-Governed Visual Intelligence Platform

Examine visual material, compare interpretations and follow the evidence supporting your review.

Product overview

A visual-evidence analysis asset that makes interpretations and disagreements reviewable.

Documented functions

- Review visual observations
- Separate observations from interpretations
- Compare analysis results
- Expose disagreements
- Retain qualification and audit records

Potential buyer fit

Visual-analysis software vendors / Research groups / Evidence-review teams

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Structured visual claims / Comparison reports / Reviewable evidence packages

Profile and full editable brief

https://thearchitect-max.github.io/MyProjects/projects/evidence-governed-visual-intelligence-platform/

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 350,000	**EUR 1,150,000**

Current repository documentation

Current main baseline: 2.9.0.

AEGIS Vision 2.9.0 adds post-release change assessment and requalification governance to its visual-evidence, provider-comparison and release-evidence workflow. The repository defines offline deterministic gates; this catalogue did not execute them. Actual provider/model performance, deployment and independent certification remain separately qualified.

Material limitations: Interpretation and evidence integrity do not establish factual truth. No regulatory or evidentiary certification is represented.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

Commercial and delivery boundary

The asking reference and seller-estimated cost to recreate comparable work retain the existing individual assessment. They are not historical expenditure, a contractor quotation, an independent appraisal, demonstrated revenue or a guaranteed buyer saving.

AS IS acquisition is subject to a separate written agreement defining the first-party rights, exact version, delivery manifest and acceptance. Third-party software, data, models, media and service rights retain their own terms. Future development, hosting, operational support, customer content and private credentials are separately scoped or excluded.

Source basis

TA-IP-012-P: product documentation reviewed 16 October 2026. TA-IP-012-C: retained commercial register. TA-IP-012-A: dated seller handover assessment. This catalogue review did not rerun product tests or certify legal, scientific, security or production acceptance.
