Faunometric

Classify recorded sounds for your bioacoustic studies and compare results across repeatable evaluations.

Product overview

A bioacoustic research product for classifying observed sounds and governing model qualification.

Documented functions

- Classify recorded sound
- Compare candidate results
- Preserve evaluation evidence
- Review release eligibility
- Apply documented runtime decision rules

Potential buyer fit

Ecological research groups / Bioacoustic software vendors / Environmental monitoring teams

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Classification records / Study reports / Qualification decisions

Profile and full editable brief

https://thearchitect-max.github.io/MyProjects/projects/faunometric/

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 275,000	**EUR 1,200,000**

Current repository documentation

Current main baseline: 5.7.0.

The latest build requires fresh validation; the earlier validated baseline remains available for review.

Material limitations: The established validation and newer development have separate evidence boundaries. Classification does not establish animal meaning or field-wide accuracy.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

Commercial and delivery boundary

The asking reference and seller-estimated cost to recreate comparable work retain the existing individual assessment. They are not historical expenditure, a contractor quotation, an independent appraisal, demonstrated revenue or a guaranteed buyer saving.

AS IS acquisition is subject to a separate written agreement defining the first-party rights, exact version, delivery manifest and acceptance. Third-party software, data, models, media and service rights retain their own terms. Future development, hosting, operational support, customer content and private credentials are separately scoped or excluded.

Source basis

TA-IP-006-P: product documentation reviewed 16 October 2026. TA-IP-006-C: retained commercial register. TA-IP-006-A: dated seller handover assessment. This catalogue review did not rerun product tests or certify legal, scientific, security or production acceptance.
