HARM – Hybrid Adaptive Rendering & Media

Organise your media-generation projects, review previews and manage their delivery.

Product overview

A media-generation product prototype for managed projects, jobs and previews.

Documented functions

- Manage projects and assets
- Submit controlled generation jobs
- Review previews
- Recover or cancel interrupted work
- Retain output provenance

Potential buyer fit

Media software vendors / Creator-platform teams / Production tool developers

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Media job records / Preview libraries / Output histories

Profile and full editable brief

https://thearchitect-max.github.io/MyProjects/projects/hybrid-adaptive-rendering-media/

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 160,000	**EUR 900,000**

Current repository documentation

Current main baseline: 0.4.0.

An implemented prototype for evaluation and further development.

Material limitations: The original product is distinct from optional external generation services. A deployed, commercially qualified service is not included by default.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

Commercial and delivery boundary

The asking reference and seller-estimated cost to recreate comparable work retain the existing individual assessment. They are not historical expenditure, a contractor quotation, an independent appraisal, demonstrated revenue or a guaranteed buyer saving.

AS IS acquisition is subject to a separate written agreement defining the first-party rights, exact version, delivery manifest and acceptance. Third-party software, data, models, media and service rights retain their own terms. Future development, hosting, operational support, customer content and private credentials are separately scoped or excluded.

Source basis

TA-IP-068-P: product documentation reviewed 16 October 2026. TA-IP-068-C: retained commercial register. TA-IP-068-A: dated seller handover assessment. This catalogue review did not rerun product tests or certify legal, scientific, security or production acceptance.
