LegalOps NL

Organise legal research, references and case material into reviewable workspaces for your professional workflow.

Product overview

A Dutch and EU legal-operations prototype for structured knowledge and reviewable evidence.

Documented functions

- Structure legal knowledge workspaces
- Generate reference and checklist material
- Record citation evidence
- Track source changes
- Manage human review queues

Potential buyer fit

Legal software vendors / Legal knowledge teams / Compliance workflow developers

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Knowledge workspaces / Citation inventories / Review records

Profile and full editable brief

https://thearchitect-max.github.io/MyProjects/projects/legalops-nl/

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 100,000	**EUR 550,000**

Current repository documentation

Current main baseline: 0.8.0.

Separate development: 0.9.0 unmerged candidate; release qualification blocked.

Evaluate the v0.8 main prototype. The v0.9 investigation-workspace candidate and newer roadmap remain unmerged; its canonical source, packaging and external release qualification are blocked or pending. The roadmap does not establish a working commercial service. Existing financial references are retained.

Material limitations: Generated legal content remains unverified until its evidence gates pass. Professional legal review and authoritative current sources remain necessary.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

Commercial and delivery boundary

The asking reference and seller-estimated cost to recreate comparable work retain the existing individual assessment. They are not historical expenditure, a contractor quotation, an independent appraisal, demonstrated revenue or a guaranteed buyer saving.

AS IS acquisition is subject to a separate written agreement defining the first-party rights, exact version, delivery manifest and acceptance. Third-party software, data, models, media and service rights retain their own terms. Future development, hosting, operational support, customer content and private credentials are separately scoped or excluded.

Source basis

TA-IP-033-P: product documentation reviewed 16 October 2026. TA-IP-033-C: retained commercial register. TA-IP-033-A: dated seller handover assessment. This catalogue review did not rerun product tests or certify legal, scientific, security or production acceptance.
