Multimodal Evidence Adaptive Systems Platform

Bring different forms of observation together and compare their contribution to your research.

Product overview

A multimodal research prototype for coordinated observation and attributable experiments.

Documented functions

- Organise multiple observation streams
- Review quality and missing data
- Align recorded sessions
- Study adaptive experiments
- Retain research provenance

Potential buyer fit

Sensor research groups / Scientific software vendors / Human-state research teams

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Observation sessions / Study reports / Replay records

Profile and full editable brief

https://thearchitect-max.github.io/MyProjects/projects/multimodal-evidence-adaptive-systems-platform/

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 115,000	**EUR 650,000**

Current repository documentation

Current main baseline: 0.2.0.

An implemented prototype for evaluation and further development.

Material limitations: Research estimates are distinct from psychological facts or human-state manipulation. Hardware and domain interpretation require separate evidence.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

Commercial and delivery boundary

The asking reference and seller-estimated cost to recreate comparable work retain the existing individual assessment. They are not historical expenditure, a contractor quotation, an independent appraisal, demonstrated revenue or a guaranteed buyer saving.

AS IS acquisition is subject to a separate written agreement defining the first-party rights, exact version, delivery manifest and acceptance. Third-party software, data, models, media and service rights retain their own terms. Future development, hosting, operational support, customer content and private credentials are separately scoped or excluded.

Source basis

TA-IP-056-P: product documentation reviewed 16 October 2026. TA-IP-056-C: retained commercial register. TA-IP-056-A: dated seller handover assessment. This catalogue review did not rerun product tests or certify legal, scientific, security or production acceptance.
