Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 50,000	**EUR 300,000**

Current repository documentation

Current main baseline: 0.2.0.

Assess the qualified 0.2.0 prototype for your decision-review needs. Production deployment and operational security require further work.

Material limitations: This lineage asset is separate from Adaptive Systems Intelligence Platform. It is not a deployed regulated or certified decision system.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

Commercial and delivery boundary

The asking reference and seller-estimated cost to recreate comparable work retain the existing individual assessment. They are not historical expenditure, a contractor quotation, an independent appraisal, demonstrated revenue or a guaranteed buyer saving.

AS IS acquisition is subject to a separate written agreement defining the first-party rights, exact version, delivery manifest and acceptance. Third-party software, data, models, media and service rights retain their own terms. Future development, hosting, operational support, customer content and private credentials are separately scoped or excluded.

Source basis

TA-IP-096-P: product documentation reviewed 16 October 2026. TA-IP-096-C: retained commercial register. TA-IP-096-A: dated seller handover assessment. This catalogue review did not rerun product tests or certify legal, scientific, security or production acceptance.
