SonicFabric

Organise music-generation projects, manage your creations and review provider choices for your audio product.

Product overview

A generative-music product foundation for creation workflows and commercial control.

Documented functions

- Organise creation projects
- Manage generation requests
- Review external service qualification
- Track output and delivery records
- Maintain library and commercial workflows

Potential buyer fit

Music software vendors / Creator-platform developers / Audio product teams

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Generation job records / Creative output libraries / Delivery histories

Profile and full editable brief

https://thearchitect-max.github.io/MyProjects/projects/sonicfabric/

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 650,000	**EUR 1,800,000**

Current repository documentation

Current main baseline: 0.2.0a33.

Separate development: 0.2.0a34 - unmerged evidence-selected provider routing.

Main includes the merged A33 bounded generation controls. A34 remains an open provider-routing candidate that selects from qualified provider evidence. Actual provider/model rights, hardware behavior and commercial operation stay subject to the separately qualified configuration.

Material limitations: Provider routing is a separate A34 candidate. Model licenses, measured generation quality, hardware acceptance and production commercial operation remain separately qualified.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

Commercial and delivery boundary

The asking reference and seller-estimated cost to recreate comparable work retain the existing individual assessment. They are not historical expenditure, a contractor quotation, an independent appraisal, demonstrated revenue or a guaranteed buyer saving.

AS IS acquisition is subject to a separate written agreement defining the first-party rights, exact version, delivery manifest and acceptance. Third-party software, data, models, media and service rights retain their own terms. Future development, hosting, operational support, customer content and private credentials are separately scoped or excluded.

Source basis

TA-IP-046-P: product documentation reviewed 16 October 2026. TA-IP-046-C: retained commercial register. TA-IP-046-A: dated seller handover assessment. This catalogue review did not rerun product tests or certify legal, scientific, security or production acceptance.
