# TLS Virtual

Explore rotating-machine behaviour in simulation and review diagnostic demonstrations and reports.

## Product overview

A rotating-machine simulation and diagnostic demonstrator with an explorable twin view.

## Documented functions

- Simulate healthy and degraded machines
- Explore fault scenarios
- Review explanatory diagnostics
- Retain machine-state histories
- Produce traceable reports

## Potential buyer fit

Industrial software vendors / Maintenance research teams / Technical training providers

Buyer profiles are positioning suggestions; they are not established customers or contracts.

## Documented output types

Diagnostic demonstrations / Twin snapshots / Scenario reports

## Profile and full editable brief

https://thearchitect-max.github.io/MyProjects/projects/tls-virtual/

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

# Status and commercial reference

| SELLER ASKING REFERENCE | RECREATION ESTIMATE |
| --- | --- |
| **EUR 195,000** | **EUR 650,000** |

## Current repository documentation

Current main baseline: 1.0.0.

Available software for evaluation against your intended use. Deployment suitability is assessed separately.

Material limitations: The release checks software behaviour against synthetic reference machines. Diagnostic performance on physical machinery is not established.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

## Commercial and delivery boundary

The asking reference and seller-estimated cost to recreate comparable work retain the existing individual assessment. They are not historical expenditure, a contractor quotation, an independent appraisal, demonstrated revenue or a guaranteed buyer saving.

AS IS acquisition is subject to a separate written agreement defining the first-party rights, exact version, delivery manifest and acceptance. Third-party software, data, models, media and service rights retain their own terms. Future development, hosting, operational support, customer content and private credentials are separately scoped or excluded.

## Source basis

TA-IP-010-P: product documentation reviewed 16 October 2026. TA-IP-010-C: retained commercial register. TA-IP-010-A: dated seller handover assessment. This catalogue review did not rerun product tests or certify legal, scientific, security or production acceptance.
