VellumGrid Autonomous Commerce Platform

Organise digital-product creation and fulfilment, and review the operational and financial evidence for your commerce workflow.

Product overview

A digital-commerce product asset for governed creation, fulfilment and delivery.

Documented functions

- Create configurable digital products
- Validate publication packages
- Track fulfilment work
- Control digital delivery
- Review cost and profit evidence

Potential buyer fit

Digital-commerce operators / Commerce software vendors / Product automation teams

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Digital product packages / Fulfilment records / Commercial review reports

Profile and full editable brief

https://thearchitect-max.github.io/MyProjects/projects/vellumgrid-autonomous-commerce-platform/

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 575,000	**EUR 2,400,000**

Current repository documentation

Current main baseline: 0.7.6.dev0.

A newer development build is in progress. Live commercial performance and profitability remain unestablished.

Material limitations: Live store operation and measured profitability are not established. External platform services and buyer commercial operation remain separate.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

Commercial and delivery boundary

The asking reference and seller-estimated cost to recreate comparable work retain the existing individual assessment. They are not historical expenditure, a contractor quotation, an independent appraisal, demonstrated revenue or a guaranteed buyer saving.

AS IS acquisition is subject to a separate written agreement defining the first-party rights, exact version, delivery manifest and acceptance. Third-party software, data, models, media and service rights retain their own terms. Future development, hosting, operational support, customer content and private credentials are separately scoped or excluded.

Source basis

TA-IP-087-P: product documentation reviewed 16 October 2026. TA-IP-087-C: retained commercial register. TA-IP-087-A: dated seller handover assessment. This catalogue review did not rerun product tests or certify legal, scientific, security or production acceptance.
