Vision Evidence Governed Multimodal Perception Framework

Compare perception results across different types of input and review the evidence behind each interpretation.

Product overview

A multimodal perception research asset for repeatable, evidence-governed studies.

Documented functions

- Run multimodal perception experiments
- Compare declared research conditions
- Review benchmark evidence
- Preserve source provenance
- Control scientific claim promotion

Potential buyer fit

Perception research groups / AI software vendors / Scientific modelling teams

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Experiment comparisons / Feature-study reports / Release evidence

Profile and full editable brief

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 160,000	**EUR 850,000**

Current repository documentation

Current main baseline: 35.0.0.

Evaluate the completed v35.0.0 software release for your intended workflow. Research evidence is feature-specific and does not establish biological equivalence.

Material limitations: Research proxies are separate from full biological behaviour. Independent quantitative and complete-mode qualification remain open.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

Commercial and delivery boundary

The asking reference and seller-estimated cost to recreate comparable work retain the existing individual assessment. They are not historical expenditure, a contractor quotation, an independent appraisal, demonstrated revenue or a guaranteed buyer saving.

AS IS acquisition is subject to a separate written agreement defining the first-party rights, exact version, delivery manifest and acceptance. Third-party software, data, models, media and service rights retain their own terms. Future development, hosting, operational support, customer content and private credentials are separately scoped or excluded.

Source basis

TA-IP-052-P: product documentation reviewed 16 October 2026. TA-IP-052-C: retained commercial register. TA-IP-052-A: dated seller handover assessment. This catalogue review did not rerun product tests or certify legal, scientific, security or production acceptance.
