Adaptive Audio MIDI Transcription Studio

Turn your recordings into editable MIDI tracks, inspect the notes and take individual parts into your music workflow.

Product overview

An audio-transcription prototype for editable, inspectable music tracks.

Documented functions

- Import supported recordings
- Separate source parts when configured
- Create approximate note tracks
- Inspect tracks in a piano roll
- Export individual or combined MIDI

Potential buyer fit

Music software vendors / Production studios / Creator-tool developers

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Editable note tracks / Piano-roll views / Multitrack MIDI files

Profile and full editable brief

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 80,000	**EUR 450,000**

Current repository documentation

Current main baseline: No semantic release version established.

An implemented prototype for evaluation and further development.

Material limitations: Audio-to-MIDI is approximate transcription rather than a lossless conversion. External processing assets and music rights are separately governed.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

Individual financial-reference review

Financial-reference review: 16 October 2026. Legacy cost reference; complete work budget missing. Original financial-reference date: 2026-10-12. Seller ask and recreation anchor are retained. Current documentation does not automatically expand the priced delivery; a delivery-specific re-estimate remains required.

Commercial and delivery boundary

Amounts are retained seller assumptions, not expenditure, a contractor quotation or independent market/income value. AS IS acquisition requires a written agreement defining first-party rights, exact delivery and acceptance. Third-party rights retain their own terms. Future development, hosting, support, customer content and credentials are separately scoped or excluded.

Source basis

TA-IP-085-P: current documentation. TA-IP-085-C: financial-reference review, 16 October 2026. TA-IP-085-A: retained dated handover assessment. Shared WIPO, Knab and limited Upwork sources provide method/rate context, not asset appraisals. Product tests were not rerun.
