Adaptive Systems Intelligence Platform

Bring evidence, policies and decisions together so your team can review the basis for its work.

Product overview

A domain-neutral governance prototype for organisations, obligations and controlled decisions.

Documented functions

- Model organisational obligations
- Review evidence applicability
- Link risks to controls
- Evaluate decision authority
- Retain system snapshots

Potential buyer fit

Governance software vendors / Enterprise architecture teams / Systems consultancies

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Governance models / Decision records / Control review reports

Profile and full editable brief

https://thearchitect-max.github.io/MyProjects/projects/adaptive-systems-intelligence-platform/

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 200,000	**EUR 1,150,000**

Current repository documentation

Current main baseline: 0.1.0.

An implemented prototype for evaluation and further development.

Material limitations: Reusable structure does not supply universal domain rules. Laws, thresholds and professional authority must be supplied and qualified for each use.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

Individual financial-reference review

Financial-reference review: 16 October 2026. Legacy cost reference; complete work budget missing. Original financial-reference date: 2026-10-12. Seller ask and recreation anchor are retained. Current documentation does not automatically expand the priced delivery; a delivery-specific re-estimate remains required.

Commercial and delivery boundary

Amounts are retained seller assumptions, not expenditure, a contractor quotation or independent market/income value. AS IS acquisition requires a written agreement defining first-party rights, exact delivery and acceptance. Third-party rights retain their own terms. Future development, hosting, support, customer content and credentials are separately scoped or excluded.

Source basis

TA-IP-083-P: current documentation. TA-IP-083-C: financial-reference review, 16 October 2026. TA-IP-083-A: retained dated handover assessment. Shared WIPO, Knab and limited Upwork sources provide method/rate context, not asset appraisals. Product tests were not rerun.
