HARM – Hybrid Adaptive Rendering & Media

Organise your media-generation projects, review previews and manage their delivery.

Product overview

A media-generation product prototype for managed projects, jobs and previews.

Documented functions

- Manage projects and assets
- Submit controlled generation jobs
- Review previews
- Recover or cancel interrupted work
- Retain output provenance

Potential buyer fit

Media software vendors / Creator-platform teams / Production tool developers

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Media job records / Preview libraries / Output histories

Profile and full editable brief

https://thearchitect-max.github.io/MyProjects/projects/hybrid-adaptive-rendering-media/

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 160,000	**EUR 900,000**

Current repository documentation

Current main baseline: 0.4.0.

An implemented prototype for evaluation and further development.

Material limitations: The original product is distinct from optional external generation services. A deployed, commercially qualified service is not included by default.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

Individual financial-reference review

Financial-reference review: 16 October 2026. Legacy cost reference; complete work budget missing. Original financial-reference date: 2026-10-12. Seller ask and recreation anchor are retained. Current documentation does not automatically expand the priced delivery; a delivery-specific re-estimate remains required.

Commercial and delivery boundary

Amounts are retained seller assumptions, not expenditure, a contractor quotation or independent market/income value. AS IS acquisition requires a written agreement defining first-party rights, exact delivery and acceptance. Third-party rights retain their own terms. Future development, hosting, support, customer content and credentials are separately scoped or excluded.

Source basis

TA-IP-068-P: current documentation. TA-IP-068-C: financial-reference review, 16 October 2026. TA-IP-068-A: retained dated handover assessment. Shared WIPO, Knab and limited Upwork sources provide method/rate context, not asset appraisals. Product tests were not rerun.
