LegalOps NL

Organise legal research, references and case material into reviewable workspaces for your professional workflow.

Product overview

A Dutch and EU legal-operations prototype for structured knowledge and reviewable evidence.

Documented functions

- Structure legal knowledge workspaces
- Generate reference and checklist material
- Record citation evidence
- Track source changes
- Manage human review queues

Potential buyer fit

Legal software vendors / Legal knowledge teams / Compliance workflow developers

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Knowledge workspaces / Citation inventories / Review records

Profile and full editable brief

https://thearchitect-max.github.io/MyProjects/projects/legalops-nl/

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 100,000	**EUR 550,000**

Current repository documentation

Current main baseline: 0.8.0.

Separate development: 0.9.0 unmerged candidate; release qualification blocked.

Evaluate the v0.8 main prototype. The v0.9 investigation-workspace candidate and newer roadmap remain unmerged; its canonical source, packaging and external release qualification are blocked or pending. The roadmap does not establish a working commercial service. Existing financial references are retained.

Material limitations: Generated legal content remains unverified until its evidence gates pass. Professional legal review and authoritative current sources remain necessary.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

Individual financial-reference review

Financial-reference review: 16 October 2026. Legacy cost reference; complete work budget missing. Original financial-reference date: 2026-10-12. Seller ask and recreation anchor are retained. Current documentation does not automatically expand the priced delivery; a delivery-specific re-estimate remains required.

Commercial and delivery boundary

Amounts are retained seller assumptions, not expenditure, a contractor quotation or independent market/income value. AS IS acquisition requires a written agreement defining first-party rights, exact delivery and acceptance. Third-party rights retain their own terms. Future development, hosting, support, customer content and credentials are separately scoped or excluded.

Source basis

TA-IP-033-P: current documentation. TA-IP-033-C: financial-reference review, 16 October 2026. TA-IP-033-A: retained dated handover assessment. Shared WIPO, Knab and limited Upwork sources provide method/rate context, not asset appraisals. Product tests were not rerun.
