PLANTELOGIA Intelligence Platform

Review supporting evidence and decision rules before adopting an intelligence workflow for your organisation.

Product overview

A distinct PLANTELOGIA lineage prototype for persistent evidence and policy review.

Documented functions

- Retain evidence records
- Evaluate declared policy conditions
- Track delegated authority
- Reconstruct audit histories
- Maintain attributable decisions

Potential buyer fit

Governance software vendors / Enterprise decision teams / Research organisations

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Policy decisions / Evidence registers / Audit histories

Profile and full editable brief

https://thearchitect-max.github.io/MyProjects/projects/plantelogia-intelligence-platform-lineage/

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 50,000	**EUR 300,000**

Current repository documentation

Current main baseline: 0.2.0.

Assess the qualified 0.2.0 prototype for your decision-review needs. Production deployment and operational security require further work.

Material limitations: This lineage asset is separate from Adaptive Systems Intelligence Platform. It is not a deployed regulated or certified decision system.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

Individual financial-reference review

Financial-reference review: 16 October 2026. Disclosed base/increment budgets reconcile; effort remains an unverified seller assumption. Original financial-reference date: 2026-10-09. Seller ask and recreation anchor are retained. Current documentation does not automatically expand the priced delivery; a delivery-specific re-estimate remains required.

Commercial and delivery boundary

Amounts are retained seller assumptions, not expenditure, a contractor quotation or independent market/income value. AS IS acquisition requires a written agreement defining first-party rights, exact delivery and acceptance. Third-party rights retain their own terms. Future development, hosting, support, customer content and credentials are separately scoped or excluded.

Source basis

TA-IP-096-P: current documentation. TA-IP-096-C: financial-reference review, 16 October 2026. TA-IP-096-A: retained dated handover assessment. Shared WIPO, Knab and limited Upwork sources provide method/rate context, not asset appraisals. Product tests were not rerun.
