TraceLine - Evidence-Governed Investigation Framework

Organise your investigation, review case evidence and keep decisions linked to their authorisation.

Product overview

An investigation workflow product for accountable case decisions and controlled evidence handling.

Documented functions

- Manage case-intake gates
- Record human authorisations
- Retain evidence custody
- Prepare controlled disclosure
- Recover interrupted evidence operations

Potential buyer fit

Investigation software vendors / Professional investigation firms / Evidence-management teams

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Case dossiers / Disclosure packages / Custody histories

Profile and full editable brief

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 295,000	**EUR 1,195,000**

Current repository documentation

Current main baseline: 0.6.0.

Review case evidence, controlled disclosure and recoverable local operations with v0.6.0. All 103 current local tests and the repository validation gate pass. Recorded authorisations and software checks support your review; they do not grant legal authority or independently authenticate evidence.

Material limitations: Workflow checks do not independently authorise an investigation or certify supplied evidence. Professional responsibility remains with the operator.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

Individual financial-reference review

Financial-reference review: 16 October 2026. Partial work-package assumptions; complete cost anchor not reconstructed. Original financial-reference date: 2026-10-12. Seller ask and recreation anchor are retained. Current documentation does not automatically expand the priced delivery; a delivery-specific re-estimate remains required.

Commercial and delivery boundary

Amounts are retained seller assumptions, not expenditure, a contractor quotation or independent market/income value. AS IS acquisition requires a written agreement defining first-party rights, exact delivery and acceptance. Third-party rights retain their own terms. Future development, hosting, support, customer content and credentials are separately scoped or excluded.

Source basis

TA-IP-065-P: current documentation. TA-IP-065-C: financial-reference review, 16 October 2026. TA-IP-065-A: retained dated handover assessment. Shared WIPO, Knab and limited Upwork sources provide method/rate context, not asset appraisals. Product tests were not rerun.
