TA-IP-050 / Ines / INDEPENDENT IP ASSET

TrueLane Ink-Core

Organise your tattoo studio’s materials, consent records, stock planning and operational workflows.

Product overview

A tattoo-studio operations asset for material traceability and business workflow support.

Documented functions

• Track materials and consent records

• Plan inventory replenishment

• Review deposit workflows

• Prepare stencil work

• Retain operational records

Potential buyer fit

Studio software vendors / Tattoo studio groups / Specialist business-platform teams

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Traceability records / Inventory plans / Stencil outputs

Profile and full editable brief

https://thearchitect-max.github.io/MyProjects/projects/truelane-inkcore/

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 160,000	**EUR 650,000**

Current repository documentation

Current main baseline: No semantic release version established.

Available software for evaluation against your intended use. Deployment suitability is assessed separately.

Material limitations: The established scope is software and workflow infrastructure. Studio practice, client rights and operational acceptance are separately governed.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

Individual financial-reference review

Financial-reference review: 16 October 2026. Legacy cost reference; complete work budget missing. Original financial-reference date: 2026-10-12. Seller ask and recreation anchor are retained. Current documentation does not automatically expand the priced delivery; a delivery-specific re-estimate remains required.

Commercial and delivery boundary

Amounts are retained seller assumptions, not expenditure, a contractor quotation or independent market/income value. AS IS acquisition requires a written agreement defining first-party rights, exact delivery and acceptance. Third-party rights retain their own terms. Future development, hosting, support, customer content and credentials are separately scoped or excluded.

Source basis

TA-IP-050-P: current documentation. TA-IP-050-C: financial-reference review, 16 October 2026. TA-IP-050-A: retained dated handover assessment. Shared WIPO, Knab and limited Upwork sources provide method/rate context, not asset appraisals. Product tests were not rerun.
