Universal Remote Perception Intelligence Platform

Plan controlled perception studies, preserve blind-study records and review what the recorded results can support.

Product overview

An offline perception-research prototype for controlled experiments and evidence review.

Documented functions

- Prepare bounded perception studies
- Review supplied observations
- Compare declared reconstruction hypotheses
- Record blinded study conditions
- Retain attributable research results

Potential buyer fit

Perception research groups / Scientific software vendors / Imaging research teams

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Study protocols / Observation dossiers / Hypothesis comparison reports

Profile and full editable brief

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 33,000	**EUR 110,000**

Current repository documentation

Current main baseline: 0.4.0.

Separate development: P1.2 - unmerged conformance and recovery candidate.

Use the current offline research prototype to prepare controlled studies and review recorded results. Main passed 52 local tests; the separate unmerged candidate passed 91 tests and its software preflight. The project's own commercial transfer gate remains blocked by unresolved rights and provenance documentation. Physical sensing and sensor-free remote perception are not established.

Material limitations: Physical sensing hardware is not built. Sensor-free remote perception is not an established capability; transfer conditions remain open.

Next qualification step: Resolve the expressly reported BLOCKED commercial transfer gate: reconcile component origin records, first-party rights and the documented ownership evidence before handover.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

Individual financial-reference review

Financial-reference review: 16 October 2026. Legacy cost reference; complete work budget missing. Original financial-reference date: 2026-10-12. Seller ask and recreation anchor are retained. Current documentation does not automatically expand the priced delivery; a delivery-specific re-estimate remains required.

Commercial and delivery boundary

Amounts are retained seller assumptions, not expenditure, a contractor quotation or independent market/income value. AS IS acquisition requires a written agreement defining first-party rights, exact delivery and acceptance. Third-party rights retain their own terms. Future development, hosting, support, customer content and credentials are separately scoped or excluded.

Source basis

TA-IP-102-P: current documentation. TA-IP-102-C: financial-reference review, 16 October 2026. TA-IP-102-A: retained dated handover assessment. Shared WIPO, Knab and limited Upwork sources provide method/rate context, not asset appraisals. Product tests were not rerun.
