Veritas Evidence Intelligence

Organise evidence, review its supporting records and prepare material for an accountable publication decision.

Product overview

An evidence-intelligence product for attributable source work and controlled publication decisions.

Documented functions

- Organise heterogeneous source material
- Review verification status
- Preserve transformation histories
- Control publication acceptance
- Retain publication-assurance records

Potential buyer fit

Evidence software vendors / Research publishers / Knowledge-platform teams

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Evidence-linked outputs / Publication records / Review dossiers

Profile and full editable brief

https://thearchitect-max.github.io/MyProjects/projects/veritas-evidence-intelligence/

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 650,000	**EUR 2,000,000**

Current repository documentation

Current main baseline: 0.24.0.

Available software for evaluation against your intended use. Deployment suitability is assessed separately.

Material limitations: Authenticating a record does not make its factual contents true. Publication integrity and source verification remain separate.

Documentation checked: 16 October 2026. Product tests were not rerun for this catalogue. Prior execution evidence, handover grades and financial assessments retain their individual dates and version scope.

Individual financial-reference review

Financial-reference review: 16 October 2026. Legacy cost reference; complete work budget missing. Original financial-reference date: 2026-10-12. Seller ask and recreation anchor are retained. Current documentation does not automatically expand the priced delivery; a delivery-specific re-estimate remains required.

Commercial and delivery boundary

Amounts are retained seller assumptions, not expenditure, a contractor quotation or independent market/income value. AS IS acquisition requires a written agreement defining first-party rights, exact delivery and acceptance. Third-party rights retain their own terms. Future development, hosting, support, customer content and credentials are separately scoped or excluded.

Source basis

TA-IP-029-P: current documentation. TA-IP-029-C: financial-reference review, 16 October 2026. TA-IP-029-A: retained dated handover assessment. Shared WIPO, Knab and limited Upwork sources provide method/rate context, not asset appraisals. Product tests were not rerun.
