Narrative Collectibles Platform

Manage collectible identities and narratives, review editorial evidence and study simulated commerce workflows with controlled inventory and ledger rules.

Product overview

Review collectible identities, edition limits, fictional narratives and editorial evidence in a local reference studio. The R5 source also supports simulated order and fulfilment states, controlled stock reservations, returns, refunds and ledger invariants. Physical facts remain distinct from fiction, and production operation and real payments require later independent acceptance.

Potential acquirers

- Collectible registry software teams
- Narrative product studios
- Independent collection operators

Documented functions

- Register collectible identities and edition limits
- Keep fictional narrative and physical facts distinct
- Bind editorial decisions to narrative revisions
- Review canon, multilingual consistency and text reuse
- Retain deterministic histories and recovery packages
- Study simulated order, fulfilment, return and refund lifecycles
- Review idempotency, duplicate-sale prevention and financial ledger invariants

Available output types

Collectible and edition records / Fictional world and narrative histories / Review and recovery packages / Simulated commerce lifecycle and ledger-assurance reports

Enterprise & commerce software

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 13,500	**Prototype**

Current scope and conditions

The 0.6.0 / R5 local reference source passed its 130-test repository suite. Independent operator, security, privacy, rights and production acceptance remain separate final gates; real payments are not activated.

Available for acquisition discussion

Identified edition: 0.6.0 / R5

• Text checks are not semantic entailment, plagiarism detection or translation-quality certification. Physical stock, third-party fiction, production commerce, real payments and hosted accounts are separately scoped.

• Commerce functions use simulated transaction states. Real payments and production commerce are not activated.

• Financial references retain their disclosed registry, assurance and R4 cost basis; agree the R5 delivery scope and any separate consideration expressly.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-108 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-19. EUR is the reference currency; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	13,500	15,192
Negotiation reference - low	10,500	11,816
Negotiation reference - high	17,500	19,693
Recreation cost estimate	45,000	50,639
Marketability cost scenario	34,425	38,738
Monetisation cost scenario	33,413	37,600
Risk-adjusted strategic reference	17,069	19,208
Weighted economic reference	30,792	34,650

Milestone-conditioned reference

Not established. No accepted next-maturity evidence or future sale/income value is established.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

Recreation estimate: EUR 35,000 of previously scoped work plus EUR 10,000 for v0.6 / R5 simulated commerce, giving EUR 45,000. The non-overlapping increment assumes 96 equivalent hours at EUR 94/hour plus 15%, rounded down to EUR 500. Asking and negotiation references retain the earlier seller-selected asking/cost relationships, rounded half-up to EUR 500. Reused foundations are included once; independent qualification, production services and future features are excluded. These are working seller estimates, not recorded spending, contractor quotes or established market value.

Full budget for the stated priced scope. Budget coverage concerns the stated priced scope; independent quotation and market value are not established.
