Adaptive Audio Production System

Analyse, process and master your audio in one workflow, with quality checks to help you review the result.

Product overview

A local audio-production foundation for repeatable processing and mastering review.

Potential acquirers

- Audio software vendors
- Music production teams
- Creator-tool developers

Documented functions

- Analyse supported audio
- Apply repeatable processing
- Review mastering targets
- Detect output quality issues
- Retain production manifests

Available output types

Processed audio / Quality reports / Production histories

Defined work. Separate written terms.

Seller asking reference / AS IS

EUR 95,000 · indicative USD 106,533

Identified edition: 0.1.0

Prototype · Conditional handover

Current scope and conditions

Seller-owned first-party rights plus specifically agreed transferable software/delivery artifacts; website displays and third-party ownership rights excluded from standalone software asset value.

• Target-environment suitability, deployment acceptance and any required independent qualification are agreed separately.

Conditions before handover

• Validation/qualification evidence not identified.

• Dependency manifest exists without an identified lockfile; reproducibility should be reviewed.

• A detailed component inventory and licensing report are required for the agreed delivery scope.

• A security assessment or an explicit statement of its absence is required before acceptance.

• Release identity and provenance evidence remain incomplete.

• An explicit delivery manifest and handover scope remain to be agreed.

The seller offers only the expressly agreed first-party rights it owns or controls, to the extent transferable. Third-party materials retain their own terms. Independent title and freedom-to-operate opinions are not established.

Prices & sources.

Price basis: 2026-11-10. EUR is authoritative; market value is not established.

Price / model reference	EUR	USD - indicative
Seller asking reference	95,000	106,533
Negotiation reference - low	75,000	84,105
Negotiation reference - high	120,000	134,568
Recreation cost estimate	600,000	672,840
Marketability cost scenario	586,500	657,701
Monetisation cost scenario	637,875	715,313
Risk-adjusted strategic reference	491,752	551,451
Weighted economic reference	566,988	635,820

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.

Coverage describes stated seller estimates only. The retained earlier anchor lacks a complete work breakdown; added scope does not validate it.

Milestone-conditioned reference

EUR 701,758; model change EUR 134,770.

Conditional model sensitivity only; no future asking price, income forecast or accepted scientific result.

Individual source review.

Reviewed 10 November 2026. Current main documentation, source inventory and open candidate status; no fresh execution of private product tests.

Retained source evidence

Source describes clipping, finite-sample, target and provenance checks with deterministic reports.

Remaining limits

No verified integrated mastering/loudness normalization, lookahead limiting, stem mixing, vocal synthesis or automated musical judgement; not a professional DAW equivalent.

Development position

No open pull request at the captured source snapshot.

Acquisition evidence profile

Technical scope: P — A local audio-production foundation for repeatable processing and mastering review. The offered edition and material boundaries govern review.

Evidence and validation: E1 — Tests or structured evidence identified. Detailed source-specific records are reviewed under agreed confidentiality; independent intended-use acceptance remains separate.

Rights and component obligations: R2 — R1 plus dependency/third-party disclosure basis identified. Review the agreed first-party rights, third-party obligations and delivery perimeter.

Commercial basis: C2 — Seller ask and reproducible economic reference established. Market value is not established.

Delivery and handover: T2 — Source, documentation, tests and licence evidence support bounded handover. The listed conditions and written delivery agreement govern acceptance.

Buyer information and next step

Quote TA-IP-060 and the project title. Agree the exact first-party edition, rights, delivery manifest and recipient acceptance separately.
