Biometric Systems Assurance Platform

Compare authentication-system results and review the evidence behind performance and fairness assessments.

Product overview

A biometric assurance asset for simulated authentication studies and reviewable evidence.

Potential acquirers

- Authentication product vendors
- Device research teams
- Security assurance providers

Documented functions

- Compare authentication settings
- Model device conditions
- Study presentation and fault scenarios
- Review error and latency measures
- Prepare evidence reports

Available output types

Assurance reports / Scenario comparisons / Laboratory review records

Defined work. Separate written terms.

Seller asking reference / AS IS

EUR 240,000 · indicative USD 269,136

Identified edition: 0.3.0

Developed software · Conditional handover

Current scope and conditions

Seller-owned first-party rights plus specifically agreed transferable software/delivery artifacts; website displays and third-party ownership rights excluded from standalone software asset value.

• Software and simulation for biometric assurance studies. Physical-device performance and independent certification are outside the current scope.

Conditions before handover

• Dependency manifest exists without an identified lockfile; reproducibility should be reviewed.

• An explicit delivery manifest and handover scope remain to be agreed.

• Review confidential security and credential-handling materials within the agreed diligence and transfer scope.

The seller offers only the expressly agreed first-party rights it owns or controls, to the extent transferable. Third-party materials retain their own terms. Independent title and freedom-to-operate opinions are not established.

Prices & sources.

Price basis: 2026-11-10. EUR is authoritative; market value is not established.

Price / model reference	EUR	USD - indicative
Seller asking reference	240,000	269,136
Negotiation reference - low	190,000	213,066
Negotiation reference - high	300,000	336,420
Recreation cost estimate	800,000	897,120
Marketability cost scenario	966,000	1,083,272
Monetisation cost scenario	1,188,000	1,332,223
Risk-adjusted strategic reference	974,632	1,092,952
Weighted economic reference	971,921	1,089,912

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.

Coverage describes stated seller estimates only. The retained earlier anchor lacks a complete work breakdown; added scope does not validate it.

Individual source review.

Reviewed 10 November 2026. Current main documentation, source inventory and open candidate status; no fresh execution of private product tests.

Retained source evidence

Source describes virtual protected resource, biometric match/liveness simulator, synthetic corpus and externally ingested decision-level evidence.

Remaining limits

No real device biometric accuracy, liveness performance, regulatory compliance or physical deployment certification.

Development position

No open pull request at the captured source snapshot.

Acquisition evidence profile

Technical scope: V — A biometric assurance asset for simulated authentication studies and reviewable evidence. The offered edition and material boundaries govern review.

Evidence and validation: E3 — Tests, validation and provenance/release evidence identified. Detailed source-specific records are reviewed under agreed confidentiality; independent intended-use acceptance remains separate.

Rights and component obligations: R3 — R2 plus SBOM/lockfile and provenance/rights-supporting evidence identified. Review the agreed first-party rights, third-party obligations and delivery perimeter.

Commercial basis: C2 — Seller ask and reproducible economic reference established. Market value is not established.

Delivery and handover: T3 — T2 plus validation, build/release and dependency-disclosure evidence. The listed conditions and written delivery agreement govern acceptance.

Buyer information and next step

Quote TA-IP-035 and the project title. Agree the exact first-party edition, rights, delivery manifest and recipient acceptance separately.
