Dominus Kraken Execution Engine

Evaluate market decisions, trading workflows and recovery scenarios within a controlled research environment.

Product overview

A trading-research and execution-workflow asset with conservative operational controls.

Potential acquirers

- Trading infrastructure developers
- Quantitative research teams
- Market-data product vendors

Documented functions

- Review public-market observations
- Compare research decisions
- Study operational recovery
- Retain chronological evaluation evidence
- Keep research separate from live authority

Available output types

Research histories / Paper-decision records / Recovery reports

Defined work. Separate written terms.

Seller asking reference / AS IS

EUR 800,000 · indicative USD 897,120

Identified edition: 3.8.0

Developed software · Conditional handover

Current scope and conditions

Seller-owned first-party rights plus specifically agreed transferable software/delivery artifacts; website displays and third-party ownership rights excluded from standalone software asset value.

• Trading research and reference workflows. Managed funds, customer accounts, business income and live financial services are excluded.

Conditions before handover

• Dependency manifest exists without an identified lockfile; reproducibility should be reviewed.

• A detailed component inventory and licensing report are required for the agreed delivery scope.

• An explicit delivery manifest and handover scope remain to be agreed.

The seller offers only the expressly agreed first-party rights it owns or controls, to the extent transferable. Third-party materials retain their own terms. Independent title and freedom-to-operate opinions are not established.

Prices & sources.

Price basis: 2026-11-10. EUR is authoritative; market value is not established.

Price / model reference	EUR	USD - indicative
Seller asking reference	800,000	897,120
Negotiation reference - low	640,000	717,696
Negotiation reference - high	1,000,000	1,121,400
Recreation cost estimate	3,000,000	3,364,200
Marketability cost scenario	3,795,000	4,255,713
Monetisation cost scenario	4,657,500	5,222,921
Risk-adjusted strategic reference	3,828,913	4,293,743
Weighted economic reference	3,780,620	4,239,587

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.

Coverage describes stated seller estimates only. The retained earlier anchor lacks a complete work breakdown; added scope does not validate it.

Individual source review.

Reviewed 10 November 2026. Current main documentation, source inventory and open candidate status; no fresh execution of private product tests.

Retained source evidence

Historical V3.9–V4.5 45 technical gates recorded with 392 forward observations against older 500 threshold; current source requires 50,000 serious forward observations and fresh exact HEAD.

Remaining limits

Forward economic OOS sample insufficient; no verified positive post-cost alpha or promoted live strategy; NO_TRADE remains. Future profit not guaranteed.

Development position

No open pull request at the captured source snapshot.

Acquisition evidence profile

Technical scope: V — A trading-research and execution-workflow asset with conservative operational controls. The offered edition and material boundaries govern review.

Evidence and validation: E3 — Tests, validation and provenance/release evidence identified. Detailed source-specific records are reviewed under agreed confidentiality; independent intended-use acceptance remains separate.

Rights and component obligations: R2 — R1 plus dependency/third-party disclosure basis identified. Review the agreed first-party rights, third-party obligations and delivery perimeter.

Commercial basis: C2 — Seller ask and reproducible economic reference established. Market value is not established.

Delivery and handover: T3 — T2 plus validation, build/release and dependency-disclosure evidence. The listed conditions and written delivery agreement govern acceptance.

Buyer information and next step

Quote TA-IP-026 and the project title. Agree the exact first-party edition, rights, delivery manifest and recipient acceptance separately.
