Faunometric

Study recorded animal/environmental sounds with controlled classification, source-isolated evaluation and abstention contracts.

Product overview

Recorded sound classification, model evaluation isolation and abstention controls; no animal-language interpretation or qualified biological truth.

Potential acquirers

- Ecological research groups
- Bioacoustic software vendors
- Environmental monitoring teams

Documented functions

- Classify recorded sound
- Compare candidate results
- Preserve evaluation evidence
- Review release eligibility
- Apply documented runtime decision rules

Available output types

Classification records / Study reports / Qualification decisions

Defined work. Separate written terms.

Seller asking reference / AS IS

EUR 275,000 · indicative USD 308,385

Identified edition: 5.7.0

Developed software · Conditional handover

Current scope and conditions

Main: 5.7.0 development. Dated asking-price limitation: EUR 275,000 ask and EUR 1,200,000 legacy recreation estimate lack a scoped 5.7 work breakdown. Current 5.7 main requires fresh source-pinned GPU revalidation; cannot present as a fully accepted release market value.

• Bioacoustic research and evaluation software. Performance for a particular species, recording environment or field use needs its own evidence.

• EUR 275,000 ask and EUR 1,200,000 legacy recreation estimate lack a scoped 5.7 work breakdown. Current 5.7 main requires fresh source-pinned GPU revalidation; cannot present as a fully accepted release market value.

Conditions before handover

• S02 exact-source price check: HOLD_CURRENT_HEAD_REVALIDATION. Scope and rights require written confirmation.

• Dependency manifest exists without an identified lockfile; reproducibility should be reviewed.

• A detailed component inventory and licensing report are required for the agreed delivery scope.

• A security assessment or an explicit statement of its absence is required before acceptance.

The seller offers only the expressly agreed first-party rights it owns or controls, to the extent transferable. Third-party materials retain their own terms. Independent title and freedom-to-operate opinions are not established.

Prices & sources.

Price basis: 2026-11-10. EUR is authoritative; market value is not established.

Price / model reference	EUR	USD - indicative
Seller asking reference	275,000	308,385
Negotiation reference - low	220,000	246,708
Negotiation reference - high	345,000	386,883
Recreation cost estimate	1,200,000	1,345,680
Marketability cost scenario	918,000	1,029,445
Monetisation cost scenario	1,188,000	1,332,223
Risk-adjusted strategic reference	547,727	614,221
Weighted economic reference	912,904	1,023,731

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.

Coverage describes stated seller estimates only. The retained earlier anchor lacks a complete work breakdown; added scope does not validate it.

Individual source review.

Reviewed 10 November 2026. Current main documentation, source inventory and open candidate status; no fresh execution of private product tests.

Retained source evidence

5.6 GPU PASS 47 gates/218 regressions, pinned source-pinned confidential record; 5.7 revalidation required

Remaining limits

Recorded sound classification, model evaluation isolation and abstention controls; no animal-language interpretation or qualified biological truth.

Development position

No open pull request at the captured source snapshot.

Acquisition evidence profile

Technical scope: V — Recorded sound classification, model evaluation isolation and abstention controls; no animal-language interpretation or qualified biological truth. The offered edition and material boundaries govern review.

Evidence and validation: E3 — Tests, validation and provenance/release evidence identified. Detailed source-specific records are reviewed under agreed confidentiality; independent intended-use acceptance remains separate.

Rights and component obligations: R2 — R1 plus dependency/third-party disclosure basis identified. Review the agreed first-party rights, third-party obligations and delivery perimeter.

Commercial basis: C2 — Seller ask and reproducible economic reference established. Market value is not established.

Delivery and handover: T3 — T2 plus validation, build/release and dependency-disclosure evidence. The listed conditions and written delivery agreement govern acceptance.

Buyer information and next step

Quote TA-IP-006 and the project title. Agree the exact first-party edition, rights, delivery manifest and recipient acceptance separately.
