Kinetic Logic Reconstructor

Compare a new professional case with earlier decisions and examine the evidence and uncertainty behind each precedent.

Product overview

An expert decision-intelligence prototype for reviewing historical professional decisions.

Potential acquirers

- Enterprise decision-tool vendors
- Engineering organisations
- Applied research teams

Documented functions

- Review historical decision evidence
- Retrieve relevant precedents
- Estimate bounded decision support
- Expose uncertainty and abstention
- Govern corpus admission

Available output types

Precedent dossiers / Decision suggestions / Corpus qualification records

Defined work. Separate written terms.

Seller asking reference / AS IS

EUR 95,000 · indicative USD 106,533

Identified edition: 1.8.0

Prototype · Conditional handover

Current scope and conditions

Seller-owned first-party rights plus specifically agreed transferable software/delivery artifacts; website displays and third-party ownership rights excluded from standalone software asset value.

• Target-environment suitability, deployment acceptance and any required independent qualification are agreed separately.

Conditions before handover

• Dependency manifest exists without an identified lockfile; reproducibility should be reviewed.

• A detailed component inventory and licensing report are required for the agreed delivery scope.

• Review confidential security and credential-handling materials within the agreed diligence and transfer scope.

The seller offers only the expressly agreed first-party rights it owns or controls, to the extent transferable. Third-party materials retain their own terms. Independent title and freedom-to-operate opinions are not established.

Prices & sources.

Price basis: 2026-11-10. EUR is authoritative; market value is not established.

Price / model reference	EUR	USD - indicative
Seller asking reference	95,000	106,533
Negotiation reference - low	75,000	84,105
Negotiation reference - high	120,000	134,568
Recreation cost estimate	600,000	672,840
Marketability cost scenario	645,150	723,471
Monetisation cost scenario	698,625	783,438
Risk-adjusted strategic reference	540,927	606,596
Weighted economic reference	608,079	681,900

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.

Coverage describes stated seller estimates only. The retained earlier anchor lacks a complete work breakdown; added scope does not validate it.

Milestone-conditioned reference

EUR 756,124; model change EUR 148,045.

Conditional model sensitivity only; no future asking price, income forecast or accepted scientific result.

Individual source review.

Reviewed 10 November 2026. Current main documentation, source inventory and open candidate status; no fresh execution of private product tests.

Retained source evidence

Source records qualification gates for benchmark provenance, corpus release lock and evidence-based ingestion decisions, but no current independent production-accuracy trial.

Remaining limits

Synthetic demonstrations are pipeline tests, not validated human decisions, legal opinions or accuracy on genuinely rights-cleared expert corpora.

Development position

No open pull request at the captured source snapshot.

Acquisition evidence profile

Technical scope: P — An expert decision-intelligence prototype for reviewing historical professional decisions. The offered edition and material boundaries govern review.

Evidence and validation: E3 — Tests, validation and provenance/release evidence identified. Detailed source-specific records are reviewed under agreed confidentiality; independent intended-use acceptance remains separate.

Rights and component obligations: R2 — R1 plus dependency/third-party disclosure basis identified. Review the agreed first-party rights, third-party obligations and delivery perimeter.

Commercial basis: C2 — Seller ask and reproducible economic reference established. Market value is not established.

Delivery and handover: T3 — T2 plus validation, build/release and dependency-disclosure evidence. The listed conditions and written delivery agreement govern acceptance.

Buyer information and next step

Quote TA-IP-047 and the project title. Agree the exact first-party edition, rights, delivery manifest and recipient acceptance separately.
