Mercorion Commerce Compiler

Turn your product catalogue into organised storefront material that you can review before publication.

Product overview

A catalogue-publication product for traceable storefront and report material.

Potential acquirers

- Commerce software vendors
- Catalogue publishers
- Enterprise product-data teams

Documented functions

- Compile structured product records
- Produce catalogue pages
- Validate publication packages
- Compare catalogue releases
- Retain build and source records

Available output types

Catalogue sites / Release comparisons / Publication evidence

Defined work. Separate written terms.

Seller asking reference / AS IS

EUR 340,000 · indicative USD 381,276

Identified edition: 1.0.0

Developed software · Conditional handover

Current scope and conditions

Seller-owned first-party rights plus specifically agreed transferable software/delivery artifacts; website displays and third-party ownership rights excluded from standalone software asset value.

• Target-environment suitability, deployment acceptance and any required independent qualification are agreed separately.

Conditions before handover

• Dependency manifest exists without an identified lockfile; reproducibility should be reviewed.

• A detailed component inventory and licensing report are required for the agreed delivery scope.

• Release identity and provenance evidence remain incomplete.

The seller offers only the expressly agreed first-party rights it owns or controls, to the extent transferable. Third-party materials retain their own terms. Independent title and freedom-to-operate opinions are not established.

Prices & sources.

Price basis: 2026-11-10. EUR is authoritative; market value is not established.

Price / model reference	EUR	USD - indicative
Seller asking reference	340,000	381,276
Negotiation reference - low	270,000	302,778
Negotiation reference - high	425,000	476,595
Recreation cost estimate	950,000	1,065,330
Marketability cost scenario	1,567,500	1,757,795
Monetisation cost scenario	2,090,000	2,343,726
Risk-adjusted strategic reference	2,525,184	2,831,741
Weighted economic reference	1,852,814	2,077,746

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.

Coverage describes stated seller estimates only. The retained earlier anchor lacks a complete work breakdown; added scope does not validate it.

Individual source review.

Reviewed 10 November 2026. Current main documentation, source inventory and open candidate status; no fresh execution of private product tests.

Retained source evidence

README reports 50/50 regression and scale tests, deterministic sharding and strict provenance-aware structured-data output; no new tests executed by portfolio reviewer.

Remaining limits

No independent traffic, checkout, fulfilment, merchant feed rights, live e-commerce uptime or sales conversion validation. Synthetic records do not establish real commercial offers.

Development position

No open pull request at the captured source snapshot.

Acquisition evidence profile

Technical scope: V — A catalogue-publication product for traceable storefront and report material. The offered edition and material boundaries govern review.

Evidence and validation: E2 — Tests plus validation/qualification evidence identified. Detailed source-specific records are reviewed under agreed confidentiality; independent intended-use acceptance remains separate.

Rights and component obligations: R2 — R1 plus dependency/third-party disclosure basis identified. Review the agreed first-party rights, third-party obligations and delivery perimeter.

Commercial basis: C2 — Seller ask and reproducible economic reference established. Market value is not established.

Delivery and handover: T3 — T2 plus validation, build/release and dependency-disclosure evidence. The listed conditions and written delivery agreement govern acceptance.

Buyer information and next step

Quote TA-IP-045 and the project title. Agree the exact first-party edition, rights, delivery manifest and recipient acceptance separately.
