Programmatic Search Fabric

Create and maintain useful collections of web pages, with review controls for your publishing workflow.

Product overview

A publishing infrastructure asset for governed collections of useful utility pages.

Potential acquirers

- Digital publishers
- Web-tool companies
- Enterprise content teams

Documented functions

- Generate structured page collections
- Check publication consistency
- Review evidence-led promotion
- Record release decisions
- Prepare controlled rollback material

Available output types

Page collections / Release records / Publication review packages

Defined work. Separate written terms.

Seller asking reference / AS IS

EUR 265,000 · indicative USD 297,171

Identified edition: 1.9.0

Developed software · Scope closure required

Current scope and conditions

Seller-owned first-party rights plus specifically agreed transferable software/delivery artifacts; website displays and third-party ownership rights excluded from standalone software asset value.

• Target-environment suitability, deployment acceptance and any required independent qualification are agreed separately.

• The delivery perimeter and transfer requirements need further review before terms can be finalised.

Conditions before handover

• Repository-native tests not identified.

• Dependency manifest exists without an identified lockfile; reproducibility should be reviewed.

• A detailed component inventory and licensing report are required for the agreed delivery scope.

• A security assessment or an explicit statement of its absence is required before acceptance.

• Release identity and provenance evidence remain incomplete.

The seller offers only the expressly agreed first-party rights it owns or controls, to the extent transferable. Third-party materials retain their own terms. Independent title and freedom-to-operate opinions are not established.

Prices & sources.

Price basis: 2026-11-10. EUR is authoritative; market value is not established.

Price / model reference	EUR	USD - indicative
Seller asking reference	265,000	297,171
Negotiation reference - low	210,000	235,494
Negotiation reference - high	330,000	370,062
Recreation cost estimate	700,000	784,980
Marketability cost scenario	1,155,000	1,295,217
Monetisation cost scenario	1,610,000	1,805,454
Risk-adjusted strategic reference	1,860,662	2,086,546
Weighted economic reference	1,379,232	1,546,671

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.

Coverage describes stated seller estimates only. The retained earlier anchor lacks a complete work breakdown; added scope does not validate it.

Individual source review.

Reviewed 10 November 2026. Current main documentation, source inventory and open candidate status; no fresh execution of private product tests.

Retained source evidence

Repository reports 61/61 control gates, 202/202 static/SSR parity and 330 regressions/484 assertions; these were not independently executed here.

Remaining limits

Route correctness and parity do not prove search ranking, traffic, advertising revenue or live hosting business; no GitHub Actions runtime.

Development position

No open pull request at the captured source snapshot.

Acquisition evidence profile

Technical scope: V — A publishing infrastructure asset for governed collections of useful utility pages. The offered edition and material boundaries govern review.

Evidence and validation: E1 — Tests or structured evidence identified. Detailed source-specific records are reviewed under agreed confidentiality; independent intended-use acceptance remains separate.

Rights and component obligations: R2 — R1 plus dependency/third-party disclosure basis identified. Review the agreed first-party rights, third-party obligations and delivery perimeter.

Commercial basis: C2 — Seller ask and reproducible economic reference established. Market value is not established.

Delivery and handover: T1 — Implementation exists but core transfer evidence is incomplete. The listed conditions and written delivery agreement govern acceptance.

Buyer information and next step

Quote TA-IP-014 and the project title. Agree the exact first-party edition, rights, delivery manifest and recipient acceptance separately.
