Spatial Wearable Perception Platform

Explore spatial observations and wearable-use scenarios, with captured material available for later review.

Product overview

A spatial-perception software asset for wearable studies and controlled overlays.

Potential acquirers

- Wearable product developers
- Spatial software vendors
- Perception research teams

Documented functions

- Organise wearable observations
- Track persistent objects
- Maintain spatial overlay state
- Replay recorded sessions
- Prepare qualified release and handover records

Available output types

Spatial session records / Overlay states / Evaluation packages

Defined work. Separate written terms.

Seller asking reference / AS IS

EUR 800,000 · indicative USD 897,120

Identified edition: 0.11.1

Developed software · Conditional handover

Current scope and conditions

Seller-owned first-party rights plus specifically agreed transferable software/delivery artifacts; website displays and third-party ownership rights excluded from standalone software asset value.

• Spatial software for wearable research and evaluation. Wearable hardware and physical-device qualification are separately scoped.

Conditions before handover

• Dependency manifest exists without an identified lockfile; reproducibility should be reviewed.

• A detailed component inventory and licensing report are required for the agreed delivery scope.

• A security assessment or an explicit statement of its absence is required before acceptance.

The seller offers only the expressly agreed first-party rights it owns or controls, to the extent transferable. Third-party materials retain their own terms. Independent title and freedom-to-operate opinions are not established.

Prices & sources.

Price basis: 2026-11-10. EUR is authoritative; market value is not established.

Price / model reference	EUR	USD - indicative
Seller asking reference	800,000	897,120
Negotiation reference - low	640,000	717,696
Negotiation reference - high	1,000,000	1,121,400
Recreation cost estimate	3,500,000	3,924,900
Marketability cost scenario	5,775,000	6,476,085
Monetisation cost scenario	5,950,000	6,672,330
Risk-adjusted strategic reference	9,303,308	10,432,730
Weighted economic reference	6,476,158	7,262,364

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.

Coverage describes stated seller estimates only. The retained earlier anchor lacks a complete work breakdown; added scope does not validate it.

Individual source review.

Reviewed 10 November 2026. Current main documentation, source inventory and open candidate status; no fresh execution of private product tests.

Retained source evidence

README reports historical 150 software tests, whole-source snapshot checking, release-seal/handoff and offline bundle verification; no new physical evidence.

Remaining limits

Real wearable camera/IMU calibration, production models, external sensor-to-photon timing and certified field performance have not been demonstrated.

Development position

No open pull request at the captured source snapshot.

Acquisition evidence profile

Technical scope: V — A spatial-perception software asset for wearable studies and controlled overlays. The offered edition and material boundaries govern review.

Evidence and validation: E3 — Tests, validation and provenance/release evidence identified. Detailed source-specific records are reviewed under agreed confidentiality; independent intended-use acceptance remains separate.

Rights and component obligations: R2 — R1 plus dependency/third-party disclosure basis identified. Review the agreed first-party rights, third-party obligations and delivery perimeter.

Commercial basis: C2 — Seller ask and reproducible economic reference established. Market value is not established.

Delivery and handover: T3 — T2 plus validation, build/release and dependency-disclosure evidence. The listed conditions and written delivery agreement govern acceptance.

Buyer information and next step

Quote TA-IP-073 and the project title. Agree the exact first-party edition, rights, delivery manifest and recipient acceptance separately.
