AEROSPACE & MOBILITY ENGINEERING

Air-to-Water Transition Vehicle

Explore a conceptual air-to-water vehicle in simulation and review how its control choices affect the model.

Reference alias: Marina | Developed prototype

PRODUCT OVERVIEW

A software-only vehicle research environment for studying an air-to-water transition concept.

DOCUMENTED FUNCTIONAL SCOPE

- Run transition simulations
- Compare control studies
- Inject modelled faults
- Replay experiment histories
- Retain validation records

POTENTIAL BUYERS

Vehicle simulation developers; Aerospace research groups; Control research teams.

Suggested positioning; no existing customer contracts are asserted.

DOCUMENTED OUTPUT TYPES

- Simulation histories
- Control comparisons
- Study reports

REFERENCE BASELINE

Acquisition brief

Air-to-Water Transition Vehicle / TA-IP-017

SELLER ASKING REFERENCE / AS IS

EUR 40,000

ESTIMATED RECREATION COST

EUR 400,000

Published pricing basis: 13 October 2026. Existing seller references retained. Recreation cost is an assumed engineering budget, not an independent appraisal, actual expenditure or guaranteed saving. Final consideration and tax treatment are agreed separately.

OFFERED TRANSACTION

AS IS acquisition of the seller-owned first-party software asset and specifically agreed transferable work products. The final written agreement defines the rights, exact delivery, permitted use and acceptance conditions.

CANDIDATE HANDOVER SCOPE

Present first-party software; associated original documentation; existing tests and evaluation material where retained; specifically agreed transferable first-party rights.

SEPARATE OR EXCLUDED

Third-party rights, private user content and credentials; future development, hosting, hardware, commercial operations and support; internal development methods and non-public know-how unless expressly agreed.

MATERIAL LIMITS AND NEXT QUALIFICATION

No physical vehicle is included. Model results do not establish aerodynamic, hydrodynamic or structural feasibility.

Review the concept assumptions and qualify the agreed simulation experiments.

RECORDED SELLER HANDOVER POSITION

Handover evidence incomplete | Record date: 2026-10-12. Documentary exhibition review only; product tests and this classification were not independently re-executed.

ENQUIRY AND SOURCE BASIS

State this product reference, intended use and requested delivery with the seller through the channel that supplied this package. Final rights and acceptance require written terms.
