SOFTWARE ASSURANCE, PROVENANCE & CONTROL

Distributed AI Resource Fabric

Coordinate AI work across your available computers, oversee active workloads and review capacity and recovery decisions.

Reference alias: Freya | Developed software

PRODUCT OVERVIEW

An AI-resource coordination asset for reviewing capacity, workload placement and recoverability.

DOCUMENTED FUNCTIONAL SCOPE

- Discover usable computing capacity
- Review workload placement
- Reserve compatible resources
- Observe execution and recovery
- Retain measured qualification evidence

POTENTIAL BUYERS

AI infrastructure vendors; Compute operators; Enterprise AI platform teams.

Suggested positioning; no existing customer contracts are asserted.

DOCUMENTED OUTPUT TYPES

- Capacity records
- Workload decisions
- Execution and recovery evidence

REFERENCE BASELINE

0.19.0

RECORDED SEPARATE DEVELOPMENT

A newer unmerged draft and physical qualification campaign remain separate from the present priced asset. Multi-device and post-failure acceptance still need representative evidence.

First-party rights reserved

Acquisition brief

Distributed AI Resource Fabric / TA-IP-022

SELLER ASKING REFERENCE / AS IS

EUR 500,000

ESTIMATED RECREATION COST

EUR 1,400,000

Published pricing basis: 13 October 2026. Existing seller references retained. Recreation cost is an assumed engineering budget, not an independent appraisal, actual expenditure or guaranteed saving. Final consideration and tax treatment are agreed separately.

OFFERED TRANSACTION

AS IS acquisition of the seller-owned first-party software asset and specifically agreed transferable work products. The final written agreement defines the rights, exact delivery, permitted use and acceptance conditions.

CANDIDATE HANDOVER SCOPE

Present first-party software; associated original documentation; existing tests and evaluation material where retained; specifically agreed transferable first-party rights.

SEPARATE OR EXCLUDED

Third-party rights, private user content and credentials; future development, hosting, hardware, commercial operations and support; internal development methods and non-public know-how unless expressly agreed.

MATERIAL LIMITS AND NEXT QUALIFICATION

Single-device evidence does not establish every multi-host scenario. Hardware, external model rights and production operation are separately scoped.

Qualify the agreed hardware configuration and unresolved execution campaign.

RECORDED SELLER HANDOVER POSITION

Handover subject to conditions | Record date: 2026-10-12. Documentary exhibition review only; product tests and this classification were not independently re-executed.

ENQUIRY AND SOURCE BASIS

State this product reference, intended use and requested delivery with the seller through the channel that supplied this package. Final rights and acceptance require written terms.
