AEROSPACE & MOBILITY ENGINEERING

FusionLunar Energy Systems Engineering Platform

Compare energy and lunar-logistics concepts for your systems-engineering studies, with a separately scoped launch and transport module.

Reference alias: Luna | Developed prototype

PRODUCT OVERVIEW

An energy and lunar-infrastructure research platform with traceable engineering studies.

DOCUMENTED FUNCTIONAL SCOPE

- Compare energy-system scenarios
- Study lunar infrastructure
- Review logistics dependencies
- Assess engineering uncertainty
- Retain qualified release records

POTENTIAL BUYERS

Energy research groups; Aerospace consultancies; Mission architecture teams.

Suggested positioning; no existing customer contracts are asserted.

DOCUMENTED OUTPUT TYPES

- Architecture comparisons
- Engineering studies
- Qualification dossiers

REFERENCE BASELINE

Acquisition brief

FusionLunar Energy Systems Engineering Platform / TA-IP-057

SELLER ASKING REFERENCE / AS IS

EUR 360,000

ESTIMATED RECREATION COST

EUR 2,900,000

Published pricing basis: 13 October 2026. Existing seller references retained. Recreation cost is an assumed engineering budget, not an independent appraisal, actual expenditure or guaranteed saving. Final consideration and tax treatment are agreed separately.

OFFERED TRANSACTION

AS IS acquisition of the seller-owned first-party software asset and specifically agreed transferable work products. The final written agreement defines the rights, exact delivery, permitted use and acceptance conditions.

CANDIDATE HANDOVER SCOPE

Present first-party software; associated original documentation; existing tests and evaluation material where retained; specifically agreed transferable first-party rights.

SEPARATE OR EXCLUDED

Third-party rights, private user content and credentials; future development, hosting, hardware, commercial operations and support; internal development methods and non-public know-how unless expressly agreed.

MATERIAL LIMITS AND NEXT QUALIFICATION

Qualified software studies do not establish functioning energy hardware or completed transport-system integration.

Evaluate the selected energy or infrastructure case against representative engineering evidence.

RECORDED SELLER HANDOVER POSITION

Handover subject to conditions | Record date: 2026-10-12. Documentary exhibition review only; product tests and this classification were not independently re-executed.

ENQUIRY AND SOURCE BASIS

State this product reference, intended use and requested delivery with the seller through the channel that supplied this package. Final rights and acceptance require written terms.

Sources: TA-IP-057-P, TA-IP-057-C, TA-IP-057-A. Product overview reviewed 13 October 2026; current commercial register; retained dated seller assessment. See the non-technical source register and price-basis page in the exhibition.
