AEROSPACE & MOBILITY ENGINEERING

Launch & Cislunar Transportation Engineering Platform

Assess launch and lunar transport options for your FusionLunar studies, compare their assumptions and review the evidence needed for further engineering.

Reference alias: Astrid | Locally tested engineering foundation

PRODUCT OVERVIEW

A transport-architecture research foundation for launch and lunar logistics choices.

DOCUMENTED FUNCTIONAL SCOPE

- Describe mission requirements
- Compare transport routes
- Screen architecture choices
- Review reliability and logistics assumptions
- Retain decision evidence

POTENTIAL BUYERS

Aerospace consultancies; Mission architecture teams; Transport research groups.

Suggested positioning; no existing customer contracts are asserted.

DOCUMENTED OUTPUT TYPES

- Transport comparisons
- Mission studies
- Architecture review records

REFERENCE BASELINE

v0.1.0.dev0

RECORDED SEPARATE DEVELOPMENT

A separate draft adds refuelling and departure-study work. Full delivery integration and release qualification remain open.

First-party rights reserved

Acquisition brief

Launch & Cislunar Transportation Engineering Platform / TA-IP-099

SELLER ASKING REFERENCE / AS IS

EUR 15,000

ESTIMATED RECREATION COST

EUR 50,000

Published pricing basis: 13 October 2026. Existing seller references retained. Recreation cost is an assumed engineering budget, not an independent appraisal, actual expenditure or guaranteed saving. Final consideration and tax treatment are agreed separately.

OFFERED TRANSACTION

AS IS acquisition of the seller-owned first-party software asset and specifically agreed transferable work products. The final written agreement defines the rights, exact delivery, permitted use and acceptance conditions.

CANDIDATE HANDOVER SCOPE

Present first-party software; associated original documentation; existing tests and evaluation material where retained; specifically agreed transferable first-party rights.

SEPARATE OR EXCLUDED

Third-party rights, private user content and credentials; future development, hosting, hardware, commercial operations and support; internal development methods and non-public know-how unless expressly agreed.

MATERIAL LIMITS AND NEXT QUALIFICATION

The foundation is distinct from a qualified launch vehicle or flight system. Joint integration with energy studies and newer refuelling work remain separate.

Qualify a representative mission and the agreed transport-study interfaces.

RECORDED SELLER HANDOVER POSITION

Handover subject to conditions | Record date: 2026-10-12. Documentary exhibition review only; product tests and this classification were not independently re-executed.

ENQUIRY AND SOURCE BASIS

State this product reference, intended use and requested delivery with the seller through the channel that supplied this package. Final rights and acceptance require written terms.
