SOFTWARE ASSURANCE, PROVENANCE & CONTROL

Mission-to-Execution Engineering Framework

Turn your project aims into reviewed requirements, dependency-aware plans and planning documents with traceable decisions.

Reference alias: Hestia | Developed prototype

PRODUCT OVERVIEW

An engineering workbench prototype for traceable requirements and execution planning.

DOCUMENTED FUNCTIONAL SCOPE

- Record mission requirements
- Organise capability and work packages
- Review dependencies and blockers
- Prepare priority-aware plans
- Generate auditable project reports

POTENTIAL BUYERS

Engineering consultancies; Programme software vendors; Product development teams.

Suggested positioning; no existing customer contracts are asserted.

DOCUMENTED OUTPUT TYPES

- Mission charters
- Requirement and plan records
- Execution review packages

REFERENCE BASELINE

0.1.0

RECORDED SEPARATE DEVELOPMENT

Separate candidate work extends traceability and feasibility review. It remains outside an accepted present delivery unless expressly agreed.

First-party rights reserved

Acquisition brief

Mission-to-Execution Engineering Framework / TA-IP-105

SELLER ASKING REFERENCE / AS IS

EUR 16,500

ESTIMATED RECREATION COST

EUR 55,000

Published pricing basis: 13 October 2026. Existing seller references retained. Recreation cost is an assumed engineering budget, not an independent appraisal, actual expenditure or guaranteed saving. Final consideration and tax treatment are agreed separately.

OFFERED TRANSACTION

AS IS acquisition of the seller-owned first-party software asset and specifically agreed transferable work products. The final written agreement defines the rights, exact delivery, permitted use and acceptance conditions.

CANDIDATE HANDOVER SCOPE

Present first-party software; associated original documentation; existing tests and evaluation material where retained; specifically agreed transferable first-party rights.

SEPARATE OR EXCLUDED

Third-party rights, private user content and credentials; future development, hosting, hardware, commercial operations and support; internal development methods and non-public know-how unless expressly agreed.

MATERIAL LIMITS AND NEXT QUALIFICATION

The present functions are an early research foundation. Autonomous engineering and cross-domain validation are not established.

Close the documentation conditions and qualify a representative mission plan.

RECORDED SELLER HANDOVER POSITION

Handover evidence incomplete | Record date: 2026-10-12. Documentary exhibition review only; product tests and this classification were not independently re-executed.

ENQUIRY AND SOURCE BASIS

State this product reference, intended use and requested delivery with the seller through the channel that supplied this package. Final rights and acceptance require written terms.

Sources: TA-IP-105-P, TA-IP-105-C, TA-IP-105-A. Product overview reviewed 13 October 2026; current commercial register; retained dated seller assessment. See the non-technical source register and price-basis page in the exhibition.
