INDUSTRIAL RELIABILITY & DIGITAL TWINS

Sensor Fusion Digital Twin Engine

Bring operational observations into a digital-twin view and review changes with their uncertainties.

Reference alias: Artemis | Developed software

PRODUCT OVERVIEW

A domain-neutral twin software foundation for operational observation and supervised review.

DOCUMENTED FUNCTIONAL SCOPE

- Organise operational observations
- Review estimated state and uncertainty
- Supervise bounded workflows
- Recover retained sessions
- Replay evaluation histories

POTENTIAL BUYERS

Digital-twin vendors; Industrial software teams; Systems integrators.

Suggested positioning; no existing customer contracts are asserted.

DOCUMENTED OUTPUT TYPES

- Twin state records
- Operational reports
- Replay evidence

REFERENCE BASELINE

1.5.0

Acquisition brief

Sensor Fusion Digital Twin Engine / TA-IP-025

SELLER ASKING REFERENCE / AS IS

EUR 235,000

ESTIMATED RECREATION COST

EUR 780,000

Published pricing basis: 13 October 2026. Existing seller references retained. Recreation cost is an assumed engineering budget, not an independent appraisal, actual expenditure or guaranteed saving. Final consideration and tax treatment are agreed separately.

OFFERED TRANSACTION

AS IS acquisition of the seller-owned first-party software asset and specifically agreed transferable work products. The final written agreement defines the rights, exact delivery, permitted use and acceptance conditions.

CANDIDATE HANDOVER SCOPE

Present first-party software; associated original documentation; existing tests and evaluation material where retained; specifically agreed transferable first-party rights.

SEPARATE OR EXCLUDED

Third-party rights, private user content and credentials; future development, hosting, hardware, commercial operations and support; internal development methods and non-public know-how unless expressly agreed.

MATERIAL LIMITS AND NEXT QUALIFICATION

A reference framework does not establish physical accuracy for each domain. Real sensors and operational decisions require buyer qualification.

Qualify the selected observations and operational acceptance criteria.

RECORDED SELLER HANDOVER POSITION

Handover subject to conditions | Record date: 2026-10-12. Documentary exhibition review only; product tests and this classification were not independently re-executed.

ENQUIRY AND SOURCE BASIS

State this product reference, intended use and requested delivery with the seller through the channel that supplied this package. Final rights and acceptance require written terms.
