INDUSTRIAL RELIABILITY & DIGITAL TWINS

StabilityMesh

Compare resilience scenarios for your distributed systems and study how defensive responses affect the simulation.

Reference alias: Ariadne | Developed software

PRODUCT OVERVIEW

A simulation environment for examining service disruption and controlled defensive responses.

DOCUMENTED FUNCTIONAL SCOPE

- Model coupled service failures
- Observe pressure and system health
- Compare defensive resource choices
- Study degraded operating conditions
- Review historical scenario results

POTENTIAL BUYERS

Platform engineering teams; Reliability teams; Infrastructure software vendors.

Suggested positioning; no existing customer contracts are asserted.

DOCUMENTED OUTPUT TYPES

- Resilience dashboards
- Scenario histories
- Response comparisons

REFERENCE BASELINE

1.3.0

Acquisition brief

StabilityMesh / TA-IP-003

SELLER ASKING REFERENCE / AS IS

EUR 200,000

ESTIMATED RECREATION COST

EUR 850,000

Published pricing basis: 13 October 2026. Existing seller references retained. Recreation cost is an assumed engineering budget, not an independent appraisal, actual expenditure or guaranteed saving. Final consideration and tax treatment are agreed separately.

OFFERED TRANSACTION

AS IS acquisition of the seller-owned first-party software asset and specifically agreed transferable work products. The final written agreement defines the rights, exact delivery, permitted use and acceptance conditions.

CANDIDATE HANDOVER SCOPE

Present first-party software; associated original documentation; existing tests and evaluation material where retained; specifically agreed transferable first-party rights.

SEPARATE OR EXCLUDED

Third-party rights, private user content and credentials; future development, hosting, hardware, commercial operations and support; internal development methods and non-public know-how unless expressly agreed.

MATERIAL LIMITS AND NEXT QUALIFICATION

The current asset is an engineering simulation platform. Operational deployment requires environment-specific calibration and acceptance.

Calibrate representative service scenarios before operational use.

RECORDED SELLER HANDOVER POSITION

Handover subject to conditions | Record date: 2026-10-12. Documentary exhibition review only; product tests and this classification were not independently re-executed.

ENQUIRY AND SOURCE BASIS

State this product reference, intended use and requested delivery with the seller through the channel that supplied this package. Final rights and acceptance require written terms.

Sources: TA-IP-003-P, TA-IP-003-C, TA-IP-003-A. Product overview reviewed 13 October 2026; current commercial register; retained dated seller assessment. See the non-technical source register and price-basis page in the exhibition.
