SCIENTIFIC OBSERVATION & DOMAIN RESEARCH

Universal Remote Perception Intelligence Platform

Plan controlled perception studies, preserve blind-study records and review what the recorded results can support.

Reference alias: Pallas | Developed prototype

PRODUCT OVERVIEW

An offline perception-research prototype for controlled experiments and evidence review.

DOCUMENTED FUNCTIONAL SCOPE

- Prepare bounded perception studies
- Review supplied observations
- Compare declared reconstruction hypotheses
- Record blinded study conditions
- Retain attributable research results

POTENTIAL BUYERS

Perception research groups; Scientific software vendors; Imaging research teams.

Suggested positioning; no existing customer contracts are asserted.

DOCUMENTED OUTPUT TYPES

- Study protocols
- Observation dossiers
- Hypothesis comparison reports

REFERENCE BASELINE

0.4.0

RECORDED SEPARATE DEVELOPMENT

A separate candidate extends conformance and recovery review. It does not establish physical sensing or close the documented transfer conditions.

First-party rights reserved

Acquisition brief

Universal Remote Perception Intelligence Platform / TA-IP-102

SELLER ASKING REFERENCE / AS IS

EUR 33,000

ESTIMATED RECREATION COST

EUR 110,000

Published pricing basis: 13 October 2026. Existing seller references retained. Recreation cost is an assumed engineering budget, not an independent appraisal, actual expenditure or guaranteed saving. Final consideration and tax treatment are agreed separately.

OFFERED TRANSACTION

AS IS acquisition of the seller-owned first-party software asset and specifically agreed transferable work products. The final written agreement defines the rights, exact delivery, permitted use and acceptance conditions.

CANDIDATE HANDOVER SCOPE

Present first-party software; associated original documentation; existing tests and evaluation material where retained; specifically agreed transferable first-party rights.

SEPARATE OR EXCLUDED

Third-party rights, private user content and credentials; future development, hosting, hardware, commercial operations and support; internal development methods and non-public know-how unless expressly agreed.

MATERIAL LIMITS AND NEXT QUALIFICATION

Physical sensing hardware is not built. Sensor-free remote perception is not an established capability; transfer conditions remain open.

Resolve rights and provenance conditions, then qualify a representative physical study.

RECORDED SELLER HANDOVER POSITION

Handover evidence incomplete | Record date: 2026-10-12. Documentary exhibition review only; product tests and this classification were not independently re-executed.

ENQUIRY AND SOURCE BASIS

State this product reference, intended use and requested delivery with the seller through the channel that supplied this package. Final rights and acceptance require written terms.
