Adaptive Systems Intelligence Platform

Bring evidence, policies and decisions together so your team can review the basis for its work.

Product overview

A local evidence-governed runtime with workspaces, cases, relationships, obligations and authority gates. Evidence expiry, revocation and supersession feed decisions; digest-verified bundles and SQLite snapshot history support controlled restore and backup.

Potential acquirers

- Governance software vendors
- Enterprise architecture teams
- Systems consultancies

Documented functions

- Model obligations, authority and risk/control relationships
- Track evidence expiry, revocation and supersession
- Organise workspaces, cases and relationship graphs
- Export and restore integrity-checked state bundles
- Retain SQLite snapshots, verify stored integrity and recover backups

Available output types

Governed case and decision records / Evidence and audit histories / Portable state bundles and verified local backups

Evidence & investigation software

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 201,500	**Prototype**

Current scope and conditions

A local evidence-governance reference runtime. Production security, availability and certification require separate qualification.

Available for acquisition discussion

Identified edition: 0.1.0 / RC1

• A local reference runtime; production security, identity, availability and deployment acceptance require separate qualification.

• Integrity records do not establish substantive truth, compliance or legal authority.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-083 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

https://thearchitect-max.github.io/MyProjects/projects/adaptive-systems-intelligence-platform/

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-11-01. EUR is the reference currency; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	201,500	225,116
Negotiation reference - low	161,000	179,869
Negotiation reference - high	252,000	281,534
Recreation cost estimate	1,158,500	1,294,276
Marketability cost scenario	1,245,677	1,391,670
Monetisation cost scenario	1,348,928	1,507,022
Risk-adjusted strategic reference	1,044,439	1,166,847
Weighted economic reference	1,174,100	1,311,705

Milestone-conditioned reference

EUR 1,459,949; model change EUR 285,849. Reach the next portfolio maturity stage with source-pinned, reproducible release checks, bounded claims and agreed handover evidence.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The recreation estimate contains EUR 1,150,000 of previously scoped work plus EUR 8,500 for RC1 local persistent governance runtime, giving EUR 1,158,500. This increment assumes 80 equivalent hours at EUR 94/hour plus 15%, rounded down to EUR 500. Asking/negotiation inputs preserve prior asking/cost relationships, rounded half-up to EUR 500. All effort and prices remain seller assumptions; market value and actual expenditure are not established. Previously described obligation, authority, risk/control and domain-pack foundations are reused and excluded from this increment. Production security, high availability, enterprise identity, certification and legal/regulatory conclusions are excluded.

Partial scoped budget; retained anchor remains provisional. Budget coverage concerns the stated priced scope; independent quotation and market value are not established.
