DMT Laser Phenomenology Engine

Organise reported visual experiences and compare study records for structured phenomenology research.

Product overview

A structured research environment for observation records, comparative studies and controlled evidence review.

Potential acquirers

- Perception research groups
- Scientific data teams
- Research software vendors

Documented functions

- Organise structured observation records
- Prepare and compare bounded studies
- Review condition and reference summaries
- Coordinate controlled evidence review
- Export portable review packages

Available output types

Observation records / Comparative study summaries / Review packages

Scientific observation & life sciences

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 223,000	**Developed software**

Current scope and conditions

Implemented phenomenology research and governed-study software. Empirical authenticity and independent scientific acceptance are not established by software checks.

Available for acquisition discussion

Identified edition: 8.29.0

• Software qualification does not establish empirical authenticity, optical causation, clinical benefit or a DMT-laser mechanism.

• Scientific conclusions and independent study acceptance require separately qualified evidence.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-023 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-21. EUR is the reference currency; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	223,000	250,518
Negotiation reference - low	180,500	202,774
Negotiation reference - high	281,500	316,237
Recreation cost estimate	1,221,000	1,371,671
Marketability cost scenario	726,495	816,144
Monetisation cost scenario	842,490	946,453
Risk-adjusted strategic reference	248,800	279,502
Weighted economic reference	706,127	793,263

Milestone-conditioned reference

Not established. No independently supported higher maturity amount or new attributable market/income evidence is established.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The recreation estimate comprises the retained expressly priced scope and the separately disclosed non-overlapping implementation budgets. Historical anchors and each successive scoped increment reconcile in the calculation below. Equivalent effort is a seller estimate; market value, actual expenditure and independent quotations are not established. Reuses the previously priced observation and study foundations. Empirical acquisition, independently authenticated custody, optical causation, clinical outcomes and scientific acceptance are excluded.

Partial scoped budget; retained anchor remains provisional. Budget coverage concerns the stated priced scope; independent quotation and market value are not established.
