Songwriting Intelligence & Creative Production Platform

Evidence-linked songwriting and controlled revision software with private workspace, recovery and deployment-assurance foundations, plus a separate offline editorial-export candidate.

Product overview

Evidence-linked songwriting and controlled revision software with private workspace, recovery and deployment-assurance foundations, plus a separate offline editorial-export candidate.

Potential acquirers

- Music and creator-software vendors
- Songwriting and publishing businesses
- Private creative-workflow operators

Documented functions

- Develop and revise supplied lyrics with explicit author approval
- Maintain governed revision, job and recovery records
- Review deployment, ingress and runtime compatibility evidence
- Rewrap an existing encrypted recovery bundle under an operator-controlled key
- Prepare a bounded offline editorial ZIP from existing authorized source text

Available output types

Lyric projects and revision comparisons / Controlled workflow records / Migration and recovery review packages / Deployment and compatibility assessments

Audio, publishing & media

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 325,500	**Developed software**

Current scope and conditions

Developed research or product software within the identified edition and material boundaries. Intended-use and recipient acceptance remain separate.

Available for discussion; current development candidate has unresolved regression checks

Identified edition: 3.32.0 retained acceptance / 3.33.0 development candidate

• The retained 3.32 acceptance covers its recorded source and runtime matrix. Current 3.33 local replay reports a failed regression: a prior test still expects the previous CLI target. Full new-release acceptance remains open.

• The editorial export is a plaintext local review artifact, not publication, an ownership certificate, generated music or autonomous distribution. Author control and separate publication decisions remain required.

• Real model/payment/email integrations, hosting, customer-data migration, independent penetration testing and production authorization require separate acceptance.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-021 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-11-03. EUR is the reference currency; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	325,500	365,081
Negotiation reference - low	260,000	291,616
Negotiation reference - high	406,500	455,930
Recreation cost estimate	1,084,000	1,215,814
Marketability cost scenario	1,246,600	1,398,187
Monetisation cost scenario	1,536,570	1,723,417
Risk-adjusted strategic reference	1,257,740	1,410,681
Weighted economic reference	1,267,843	1,422,013

Milestone-conditioned reference

Not established. No independently supported higher maturity amount or new attributable market/income evidence is established.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The retained expressly priced scope and successive non-overlapping implementation budgets reconcile below. Equivalent effort and historical anchors remain seller assumptions; actual expenditure, independent quotations and market value are not established. The previously priced songwriting, workspace, recovery and role-isolation foundations are reused once. Only the added migration-inventory/rehearsal, staging, ingress and compatibility work is included. Actual hosting, paid services, customer-data migration, live model/payment/email integrations and independent production acceptance are excluded. Review on 2026-11-03: The previously priced songwriting, workspace, recovery, role-isolation, migration, ingress and compatibility scope remains the monetary basis. The 3.32 rewrap and 3.33 editorial-handoff changes are separately disclosed development scope without an added price premium in this review. No live service, external entitlement, publication or production acceptance is included.

Partial scoped budget; retained anchor remains provisional. Budget coverage concerns the stated priced scope; independent quotation and market value are not established.
