CipherRouteDB

Explore privacy-conscious ways to route and access information in controlled research settings.

Product overview

A privacy-oriented database research foundation with restart and authenticated journal studies, AEAD persistence, external rollback-guard contracts and controlled security-bootstrap interfaces.

Potential acquirers

- Privacy research groups
- Secure-storage developers
- Academic security teams

Documented functions

- Study confidential access and routing primitives
- Retain authenticated journal and restart research
- Evaluate AEAD persistence and key rotation
- Bind external rollback and qualification contracts
- Exercise an HTTPS/mTLS monotonic-counter adapter

Available output types

Research comparisons / Access-study records / Continuity evidence

Security, identity & traceability

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 116,000	**Prototype**

Current scope and conditions

A prototype offered for evaluation and continued development; production acceptance is separate.

Available for acquisition discussion

Identified edition: 0.3.19

• The private-fetch access-pattern primitive remains unresolved. ORAM/PIR/DPF and shadow components are research/reference scope; this is not a qualified production private database.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-041 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

https://thearchitect-max.github.io/MyProjects/projects/cipherroutedb/

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-11-03. EUR is the reference currency; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	116,000	130,106
Negotiation reference - low	91,000	102,066
Negotiation reference - high	146,500	164,314
Recreation cost estimate	858,500	962,894
Marketability cost scenario	881,143	988,290
Monetisation cost scenario	738,847	828,691
Risk-adjusted strategic reference	738,795	828,632
Weighted economic reference	797,201	894,141

Milestone-conditioned reference

EUR 985,044; model change EUR 187,843. Reach the next portfolio maturity stage with source-pinned, reproducible release checks, bounded claims and agreed handover evidence.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

Recreation estimate: EUR 850,000 retained scope component plus EUR 8,500 for the explicitly scoped implementation work budget, giving EUR 858,500. The scoped budget assumes 80 equivalent hours at EUR 94/hour plus 15%, rounded down to EUR 500. The retained scope component has no complete per-role reconstruction budget and remains a low-confidence seller estimate. The asking reference and negotiation bounds preserve the seller-selected asking/cost relationships, rounded to EUR 500; they are transaction assumptions, not measured market value.

Partial scoped budget; retained anchor remains provisional. Budget coverage concerns the stated priced scope; independent quotation and market value are not established.

Upwork - Software developer hiring costs

European Central Bank - Euro reference exchange rate - US dollar

External sources inform the method, contractor-rate context and currency only. Project-specific prices and model factors remain seller assumptions. The marketability, monetisation and strategic references share a cost anchor; their weighted blend is not an independent appraisal.

USD display: EUR 1 = USD 1.1216; ECB 2026-11-02. EUR is authoritative.
