Launch & Cislunar Transportation Engineering Platform

Assess launch and lunar transport options for your FusionLunar studies, compare their assumptions and review the evidence needed for further engineering.

Product overview

A transport-architecture research foundation for launch and lunar logistics choices.

Potential acquirers

- Aerospace consultancies
- Mission architecture teams
- Transport research groups

Documented functions

- Describe mission requirements
- Compare transport routes
- Screen architecture choices
- Review reliability and logistics assumptions
- Retain decision evidence

Available output types

Transport comparisons / Mission studies / Architecture review records

Aerospace & mobility engineering

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 15,000	**Prototype**

Current scope and conditions

A prototype offered for evaluation and continued development; production acceptance is separate.

Available for acquisition discussion

Identified edition: v0.1.0.dev0

• Transport-architecture research software. Launch hardware, mission delivery and physical performance are excluded.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-098 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-11-03. EUR is the reference currency; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	15,000	16,824
Negotiation reference - low	12,000	13,459
Negotiation reference - high	18,750	21,030
Recreation cost estimate	50,000	56,080
Marketability cost scenario	34,425	38,611
Monetisation cost scenario	28,688	32,176
Risk-adjusted strategic reference	17,069	19,145
Weighted economic reference	31,097	34,878

Milestone-conditioned reference

EUR 36,707; model change EUR 5,610. Evidence a reproducible release, agreed component and rights boundaries, use-specific qualification and recipient acceptance of the defined software package.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

Disclosed base/increment assumptions reconcile to the retained recreation anchor. Effort remains an analyst estimate for its original scope.

Stated scope reconciled to explicit budgets. Budget coverage concerns the stated priced scope; independent quotation and market value are not established.
