Universal-Systems-Intelligence-Engine

Explore how changes could affect interconnected systems, compare alternative scenarios and review the recorded outcomes.

Product overview

A connected-system modelling prototype for comparable what-if experiments.

Potential acquirers

- Digital-twin vendors
- Systems research groups
- Engineering consultancies

Documented functions

- Compose linked system studies
- Compare declared scenarios
- Review supplied observations
- Run local combined simulations
- Retain attributable histories

Available output types

Scenario comparisons / Observation records / Simulation histories

Operations, reliability & digital twins

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 48,000	**Prototype**

Current scope and conditions

A prototype offered for evaluation and continued development; production acceptance is separate.

Scope and transfer review required

Identified edition: v0.6.0

• A connected-system modelling prototype. Physical prediction and cross-domain accuracy require domain-specific qualification.

• The delivery perimeter and transfer requirements need further review before terms can be finalised.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-097 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-18. EUR is the reference currency; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	48,000	54,014
Negotiation reference - low	38,400	43,212
Negotiation reference - high	60,000	67,518
Recreation cost estimate	160,000	180,048
Marketability cost scenario	128,520	144,624
Monetisation cost scenario	91,800	103,303
Risk-adjusted strategic reference	63,725	71,710
Weighted economic reference	106,368	119,696

Milestone-conditioned reference

EUR 126,295; model change EUR 19,927. Reach the next portfolio maturity stage with source-pinned, reproducible release checks, bounded claims and an agreed operational and handover acceptance scope.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

Disclosed base/increment assumptions reconcile to the retained recreation anchor. Effort remains an analyst estimate for its original scope.
