Aerospace Mission Simulator

Explore mission scenarios, compare routes and examine planning assumptions before real-world deployment.

Product overview

An aerospace mission simulation product for route comparisons and uncertainty-aware studies.

Potential acquirers

- Aerospace research groups
- Mission-planning software vendors
- Vehicle engineering teams

Documented functions

- Simulate mission scenarios
- Compare route choices
- Review energy margins
- Study modelled sensor and actuator faults
- Retain supervisory event histories

Available output types

Mission comparisons / Scenario telemetry / Safety-review records

Aerospace & mobility engineering

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 215,000	**Developed software**

Current scope and conditions

Existing software offered for evaluation against an agreed use and delivery scope.

Available for acquisition discussion

• Target-environment suitability, deployment acceptance and any required independent qualification are agreed separately.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-030 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-17. Existing EUR amounts retained; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	215,000	241,940
Negotiation reference - low	170,000	191,301
Negotiation reference - high	270,000	303,831
Recreation cost estimate	850,000	956,505
Marketability cost scenario	879,750	989,983
Monetisation cost scenario	975,375	1,097,589
Risk-adjusted strategic reference	887,612	998,830
Weighted economic reference	894,189	1,006,231

Milestone-conditioned reference

Not established. No independently supported higher maturity amount or new attributable market/income evidence is established.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.
