ATHANOR Adaptive Topology, Hazard Analysis, Network Optimization & Resilience

Compare recovery options when your network is disrupted, and review the evidence behind each choice.

Product overview

A resilience research asset for comparing recovery choices under network disruption.

Potential acquirers

- Infrastructure engineering teams
- Network research groups
- Resilience consultancies

Documented functions

- Create controlled disruption studies
- Compare recovery alternatives
- Assess uncertainty
- Review reasons for selected actions
- Retain repeatable evaluation records

Available output types

Recovery comparisons / Scenario reports / Decision records

Operations, reliability & digital twins

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 95,000	**Developed software**

Current scope and conditions

Existing software offered for evaluation against an agreed use and delivery scope.

Scope and transfer review required

• Target-environment suitability, deployment acceptance and any required independent qualification are agreed separately.

• The delivery perimeter and transfer requirements need further review before terms can be finalised.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-002 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

https://thearchitect-max.github.io/MyProjects/projects/athanor/

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-17. Existing EUR amounts retained; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	95,000	106,904
Negotiation reference - low	75,000	84,398
Negotiation reference - high	120,000	135,036
Recreation cost estimate	520,000	585,156
Marketability cost scenario	382,200	430,090
Monetisation cost scenario	265,200	298,430
Risk-adjusted strategic reference	130,891	147,292
Weighted economic reference	305,292	343,545

Milestone-conditioned reference

Not established. No independently supported higher maturity amount or new attributable market/income evidence is established.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.
